

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended June 30, 2021

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

Commission file number 000-22418

ITRON, INC.

(Exact name of registrant as specified in its charter)

Washington
(State of Incorporation)

91-1011792
(I.R.S. Employer Identification No.)

2111 N Molter Road, Liberty Lake, Washington 99019
(509) 924-9900
(Address and telephone number of registrant's principal executive offices)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock, no par value	ITRI	NASDAQ Global Select Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 31, 2021, there were outstanding 45,235,686 shares of the registrant's common stock, no par value, which is the only class of common stock of the registrant.

ITRON, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2021
(UNAUDITED)

In this Quarterly Report on Form 10-Q, the terms "we", "us", "our", "Itron", and the "Company" refer to Itron, Inc. and its subsidiaries.

Note 1: Summary of Significant Accounting Policies

Financial Statement Preparation

The consolidated financial statements presented in this Quarterly Report on Form 10-Q are unaudited and reflect entries necessary for the fair presentation of the Consolidated Statements of Operations and the Consolidated Statements of Comprehensive Income (Loss) for the three and six months ended June 30, 2021 and 2020, Consolidated Statements of Equity for the three and six months ended June 30, 2021 and 2020, the Consolidated Statements of Cash Flows for the six months ended June 30, 2021 and 2020, and the Consolidated Balance Sheets as of June 30, 2021 and December 31, 2020, of Itron, Inc. and its subsidiaries. All entries required for the fair presentation of the financial statements are of a normal recurring nature, except as disclosed. The results of operations for the three and six months ended June 30, 2021 are not necessarily indicative of the results expected for the full year or for any other period.

Certain information and notes normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) have been partially or completely omitted pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (SEC) regarding interim results. These consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto for the fiscal year ended December 31, 2020 filed with the SEC in our Annual Report on Form 10-K on February 24, 2021 (2020 Annual Report). There have been no significant changes in financial statement preparation or significant accounting policies since December 31, 2020.

Risks and Uncertainties

The COVID-19 pandemic has had global economic impacts including disrupting customer demand and global supply chains, resulting in market volatility. The extent of the recent pandemic and its ongoing impact on our operations is volatile, but is being monitored closely by our management. During portions of the first half of 2020 certain of our European factories were closed due to government actions and local conditions, and any further closures that may be imposed on us could impact our results for 2021. New variants of the virus may cause previously lifted restrictions to be reinstated, which could result in more disruptions. Incremental costs we have incurred related to COVID-19, such as personal protective equipment, increased cleaning and sanitizing of our facilities, and other such items, have not been material to date. As economies have reopened, global supply chains have struggled to keep pace with rapidly changing demand. The resulting supply constraints could appear across a variety of areas including mechanical, electrical and logistics portions of the supply chain, which could impact our ability to ship products in a timely manner. At this time, we have not identified any significant decrease in long-term customer demand for our products and services. Certain of our customers' projects and deployments have continued to shift later into 2021 and beyond.

Recently Adopted Accounting Standards

In December 2019, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*, which modifies certain provisions of Accounting Standards Codification (ASC) 740, to reduce the complexity of accounting for income taxes. ASU 2019-12 was effective for us beginning with our interim financial reports in 2021. The adoption of this standard had no impact to our year-to-date consolidated financial position, results of operations, or cash flows and is not expected to have a material impact on full year 2021 financial results.

In August 2020, the FASB issued ASU 2020-06, *Debt - Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging - Contracts in Entity's Own Equity (Subtopic 815-40) - Accounting for Convertible Instruments and Contracts in an Entity's Own Equity (ASU 2020-06)*. This amendment simplifies the accounting for certain financial instruments with characteristics of liabilities and equity, including convertible instruments and contracts on an entity's own equity. We chose to early adopt ASU 2020-06 beginning January 1, 2021, due to the issuance of our convertible debt on March 9, 2021. This amendment had no retrospective changes but impacts how our newly issued convertible debt is both recognized and disclosed. ASU 2020-06 also amends the diluted earnings per share calculation for convertible instruments by requiring the use of the if-converted method. The treasury stock method is no longer available.

Recent Accounting Standards Not Yet Adopted

In March 2020, the FASB issued ASU 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*, which provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships, and other transactions affected by reference rate reform. ASU 2020-04 applies to contracts that reference LIBOR or another reference rate expected to be terminated because of reference rate reform. An entity may elect certain optional expedients for hedging relationships that exist as of December 31, 2022 and maintain those optional expedients through the end of the hedging relationship. ASU 2020-04 could be adopted as of March 12, 2020 or thereafter. In January 2021, the FASB issued ASU 2021-01, which further updates the scope of Topic 848. We do not currently have any contracts that have been changed to a new reference rate, but we will continue to evaluate our contracts and the effects of this standard on our consolidated financial position, results of operations, and cash flows prior to adoption.

Note 2: Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share (EPS):

<i>In thousands, except per share data</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Net loss available to common shareholders	\$ (33,123)	\$ (62,802)	\$ (20,520)	\$ (54,118)
Weighted average common shares outstanding - Basic	45,142	40,216	43,344	40,130
Dilutive effect of stock-based awards	—	—	—	—
Dilutive effect of convertible notes	—	—	—	—
Weighted average common shares outstanding - Diluted	45,142	40,216	43,344	40,130
Net loss per common share - Basic	\$ (0.73)	\$ (1.56)	\$ (0.47)	\$ (1.35)
Net loss per common share - Diluted	\$ (0.73)	\$ (1.56)	\$ (0.47)	\$ (1.35)

Stock-based Awards

For stock-based awards, the dilutive effect is calculated using the treasury stock method. Under this method, the dilutive effect is computed as if the awards were exercised at the beginning of the period (or at time of issuance, if later) and assumes the related proceeds were used to repurchase our common stock at the average market price during the period. Related proceeds include the amount the employee must pay upon exercise and the future compensation cost associated with the stock award. Approximately 0.4 million and 0.5 million stock-based awards were excluded from the calculation of diluted EPS for the three and six months ended June 30, 2021 because they were anti-dilutive. Approximately 0.9 million and 0.8 million stock-based awards were excluded from the calculation of diluted EPS for the three and six months ended June 30, 2020 because they were anti-dilutive. These stock-based awards could be dilutive in future periods.

Convertible Notes and Warrants

For our Convertible Notes issued in March 2021, the dilutive effect is calculated using the if-converted method. We are required, pursuant to the indenture governing our Convertible Notes, to settle the principal amount of the Convertible Notes in cash and may elect to settle the remaining conversion obligation (stock price in excess of conversion price) in cash, shares, or a combination thereof. Under the if-converted method, we include the number of shares required to satisfy the remaining conversion obligation, assuming all the Convertible Notes are converted. The average closing price of our common stock for the quarter ended March 31, 2021 is used as the basis for determining the dilutive effect on EPS. The average price of our common stock for the quarter ended March 31, 2021 was less than the conversion price of \$126.00, and all associated shares were anti-dilutive.

In conjunction with the issuance of the Convertible Notes, we sold warrants to purchase 3.7 million shares of Itron common stock. The warrants have a strike price of \$180.00 per share. For calculating the dilutive effect of the warrants, we use the treasury stock method. With this method, we assume exercise of the warrants at the beginning of the period, or at time of issuance if later, and the issuance of common stock upon exercise. Proceeds from the exercise of the warrants are assumed to be used to repurchase shares of our stock at the average market price during the period. The incremental shares, representing the number of shares assumed to be exercised with the warrants less the number of shares repurchased, are included in diluted weighted average common shares outstanding. For periods where the warrants strike price of \$180.00 per share is greater than the average share price of Itron stock for the period, the warrants would be anti-dilutive. For the three and six months ended

June 30, 2021, the average share price was below the warrant strike price and therefore 3.7 million shares were considered anti-dilutive.

Convertible Note Hedge Transactions

In connection with the issuance of the Convertible Notes, we entered into privately negotiated call option contracts on our common stock (the Convertible Note Hedge Transactions) with certain commercial banks (the Counterparties). We paid an aggregate amount of \$84.1 million for the Convertible Note Hedge Transactions. The Convertible Note Hedge Transactions cover, subject to anti-dilution adjustments substantially similar to those in the Convertible Notes, approximately 3.7 million shares of our common stock, the same number of shares initially underlying the Convertible Notes, at a strike price of approximately \$126.00, subject to customary adjustments. The Convertible Note Hedge Transactions will expire upon the maturity of the Convertible Notes, subject to earlier exercise or termination. Exercise of the Convertible Note Hedge Transactions would reduce the number of shares of our common stock outstanding and therefore would be anti-dilutive.

Note 3: Certain Balance Sheet Components

A summary of accounts receivable from contracts with customers is as follows:

Accounts receivable, net

<i>In thousands</i>	June 30, 2021		December 31, 2020

Credit Facility

On October 18, 2019, we amended our credit facility that was initially entered on January 5, 2018 (as amended the 2018 credit facility). The 2018 credit facility provides for committed credit facilities in the amount of \$1.2 billion U.S. dollars. The 2018 credit facility consists of a \$650 million U.S. dollar term loan (the term loan) and a multicurrency revolving line of credit (the revolver) with a principal amount of up to \$500 million. The revolver also contains a \$300 million standby letter of credit sub-facility and a \$50 million swingline sub-facility. The October 18, 2019 amendment extended the maturity date to October 18, 2024 and re-amortized the term loan based on the new balance as of the amendment date. The amendment also modified the required interest payments and made it based on total net leverage instead of total leverage. Through the third quarter of 2020, amounts not borrowed under the revolver were subject to a commitment fee, which was paid in arrears on the last day of each fiscal quarter, ranging from 0.15% to 0.25% and drawn amounts were subject to a margin ranging from 1.00% to 1.75%.

On October 19, 2020, we completed a second amendment to our 2018 credit facility. This amendment adjusts the maximum total net leverage ratio thresholds for the period beginning with the fourth quarter of 2020 through the fourth quarter of 2021 to allow for increased operational flexibility. The maximum leverage ratio is increased to 4.75:1 for the fourth quarter of 2020 and the first quarter of 2021 and 4.50:1 for the second quarter through the fourth quarter of 2021. An additional level of pricing was added to the existing pricing grid and is effective throughout the remaining term of the 2018 credit facility. Beginning with the fourth quarter of 2020, the commitment fee ranges from 0.15% to 0.30% and drawn amounts are subject to a margin ranging from 1.00% to 2.00%. Debt fees of approximately \$1.4 million were incurred for the amendment, as well as other legal and advisory fees. Both the term loan and the revolver can be repaid without penalty. Amounts repaid on the term loan may not be reborrowed, and amounts borrowed under the revolver may be repaid and reborrowed until the revolver's maturity, at which time all outstanding loans together with all accrued and unpaid interest must be repaid.

On March 8, 2021, we entered into a third amendment to our 2018 credit facility, which modified provisions to permit cash settlement upon the conversion of the Convertible Notes, the Convertible Senior Note Hedge Transactions and Warrant Transactions and also to adjust certain settlement provisions for convertible indebtedness. See Note 7: Derivative Financial Instruments for further details of the Convertible Note Hedge Transactions and Warrant Transactions.

The 2018 credit facility permits us and certain of our foreign subsidiaries to borrow in U.S. dollars, euros, British pounds, or, with lender approval, other currencies readily convertible into U.S. dollars. All obligations under the 2018 credit facility are guaranteed by Itron, Inc. and material U.S. domestic subsidiaries and are secured by a pledge of substantially all of the assets of

Itron, Inc. and material U.S. domestic subsidiaries. This includes a pledge of 100% of the capital stock of material U.S. domestic subsidiaries and up to 66% of the voting stock (100% of the non-voting stock) of first-tier foreign subsidiaries. In addition, the obligations of any foreign subsidiary who is a foreign borrower, as defined by the 2018 credit facility, are guaranteed by the foreign subsidiary and by its direct and indirect foreign parents. The 2018 credit facility includes debt covenants, which contain certain financial thresholds and place certain restrictions on the incurrence of debt, investments, and the issuance of dividends. We were in compliance with the debt covenants under the 2018 credit facility at June 30, 2021.

Under the 2018 credit facility, we elect applicable market interest rates for both the term loan and any outstanding revolving loans. We also pay an applicable margin, which is based on our total net leverage ratio as defined in the credit agreement. The applicable rates per annum may be based on either: (1) the LIBOR rate or EURIBOR rate (subject to a floor of 0%), plus an applicable margin, or (2) the Alternate Base Rate, plus an applicable margin. The Alternate Base Rate election is equal to the greatest of three rates: (i) the prime rate, (ii) the Federal Reserve effective rate plus 0.50%, or (iii) one-month LIBOR plus 1.00%. At June 30, 2021, the interest rate for both the term loan and the revolver was 1.11%, which includes the LIBOR rate plus a margin of 1.00%.

In March 2020, we drew \$400 million in U.S. dollars under the revolving line of credit within the 2018 credit facility to increase our cash position and preserve future financial flexibility, which was fully repaid as of December 31, 2020. At June 30, 2021, there was no amount outstanding under the revolver, and \$65.5 million was utilized by outstanding standby letters of credit, resulting in \$434.5 million available for additional borrowings or standby letters of credit. At June 30, 2021, \$234.5 million was available for additional standby letters of credit under the letter of credit sub-facility, and no amounts were outstanding under the swingline sub-facility.

Senior Notes

In December 2017 and January 2018, we issued \$300 million and \$100 million of aggregate principal amount of 5.00% senior notes maturing January 15, 2026 (Senior Notes). The proceeds were used to refinance existing indebtedness related to the acquisition of Silver Spring Networks, Inc., pay related fees and expenses, and for general corporate purposes. Interest on the Senior Notes was payable semi-annually in arrears on January 15 and July 15. The Senior Notes were fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by each of our subsidiaries that guarantee the senior credit facilities.

On March 9, 2021, we submitted a Notice of Redemption to the trustee to redeem all outstanding Senior Notes at a redemption price of 102.50%, in accordance with the indenture governing the Senior Notes, totaling \$410.0 million. As of April 8, 2021 the Senior Notes were fully discharged, and no principal or unpaid interest remains outstanding. The 2.5%, or \$10.0 million, early redemption premium and write off of \$11.1 million prepaid debt fees were recognized upon redemption in the second quarter of 2021.

Convertible Notes

On March 12, 2021, we closed the sale of the Convertible Notes in a private placement to qualified institutional buyers, resulting in net proceeds to us of \$448.5 million after deducting initial purchasers' discounts of the offering. The Convertible Notes do not bear regular interest, and the principal amount does not accrete. The Convertible Notes will mature on March 15, 2026, unless earlier repurchased, redeemed, or converted in accordance with their terms. No sinking fund is provided for the Convertible Notes.

The initial conversion rate of the Convertible Notes is 7.9365 shares of our common stock per \$1,000 principal amount of notes, which is equivalent to an initial conversion price of approximately \$126.00 per share. The conversion rate of the Convertible Notes is subject to adjustment upon the occurrence of certain specified events. In addition, upon the occurrence of a make-whole fundamental change (as defined in the indenture governing the Convertible Notes) or upon a notice of redemption, we will, in certain circumstances, increase the conversion rate for a holder that elects to convert its Convertible Notes in connection with such make-whole fundamental change or notice of redemption, as the case may be.

Prior to the close of business on the business day immediately preceding December 15, 2025, the Convertible Notes are convertible at the option of the holders only under the following circumstances: (1) during any calendar quarter commencing after the calendar quarter ending on June 30, 2021 (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during the period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day; (2) during the five business-day period after any five consecutive trading-day period (the measurement period) in which the trading price per \$1,000 principal amount of Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of the common stock and the conversion rate on each such trading day; (3) upon the occurrence of specified corporate events; or (4) upon redemption by us. On or after

December 15, 2025, until the close of business on the second scheduled trading day immediately preceding March 15, 2026, holders of the Convertible Notes may convert all or a portion of their notes at any time. Upon conversion, we will pay cash up to the aggregate principal amount of Convertible Notes to be converted and pay and/or deliver, as the case may be, cash, shares of common stock or a combination of cash and shares of common stock, at our election, in respect of the remainder, if any, of our conversion obligation in excess of the aggregate principal amount of the Convertible Notes being converted.

On or after March 20, 2024 and prior to December 15, 2025, we may redeem for cash all or part of the Convertible Notes, at our option, if the last reported sales price of common stock has been at least 130% of the conversion price then in effect for at least 20 trading days (whether or not consecutive), including the trading day immediately preceding the date on which we provide notice of redemption, during any 30 consecutive trading days ending on, and including, the trading day immediately before the date we send the related notice of the redemption. The redemption price of each Convertible Notes to be redeemed will be the principal amount of such note, plus accrued and unpaid special interest, if any. Upon the occurrence of a fundamental change (as defined in the indenture governing the Convertible Notes), subject to a limited exception described in the indenture governing the Convertible Notes, holders may require us to repurchase all or a portion of their notes for cash at a price equal to plus accrued and unpaid special interest to, but not including, the fundamental change repurchase date (as defined in the indenture governing the Convertible Notes).

The Convertible Notes are senior unsecured obligations and rank equally in right of payment with all of our existing and future unsubordinated debt and senior in right of payment to any future debt that is expressly subordinated in right of payment to the Convertible Notes. The Convertible Notes will be effectively subordinated to any of our existing and future secured debt to the extent of the assets securing such indebtedness. The Convertible Notes will be structurally subordinated to all existing debt and any future debt and any other liabilities of our subsidiaries.

Debt Maturities

The amount of required minimum principal payments on our debt in aggregate over the next five years is as follows:

Year Ending December 31,	Minimum Payments
<i>In thousands</i>	
2021 (amount remaining at June 30, 2021)	\$ —
2022	—
2023	—
2024	31,094
2025	—
Thereafter	460,000
Total minimum payments on debt	<u>\$ 491,094</u>

Note 7: Derivative Financial Instruments

As part of our risk management strategy, we use derivative instruments to hedge certain foreign currency and interest rate exposures. Refer to Note 13: Shareholders' Equity and Note 14: Fair Value of Financial Instruments for additional disclosures on our derivative instruments.

The fair values of our derivative instruments are determined using the income approach and significant other observable inputs (and are classified as "Level 2" in the fair value hierarchy). We have used observable market inputs based on the type of derivative and the nature of the underlying instrument. The key inputs include interest rate yield curves (swap rates and futures) and foreign exchange spot and forward rates, all of which are available in an active market. We have utilized the mid-market pricing convention for these inputs. We include, as a discount to the derivative asset, the effect of our counterparty credit risk based on current published credit default swap rates when the net fair value of our derivative instruments is in a net asset position. We consider our own nonperformance risk when the net fair value of our derivative instruments is in a net liability position by discounting our derivative liabilities to reflect the potential credit risk to our counterparty through applying a current market indicative credit spread to all cash flows.

The fair values of our derivative instruments were as follows:

Derivatives Assets	Balance Sheet Location	Fair Value	
		June 30, 2021	December 31, 2020
Derivatives designated as hedging instruments under ASC 815-20		<i>In thousands</i>	
Foreign exchange options	Other current assets	\$ 666	\$ —
Derivatives not designated as hedging instruments under ASC 815-20			
Foreign exchange forward contracts	Other current assets	25	52
Total asset derivatives		<u>\$ 691</u>	<u>\$ 52</u>
Derivatives Liabilities			
Derivatives designated as hedging instruments under ASC 815-20			
Interest rate swap contracts	Other current liabilities	\$ —	\$ 1,025
Interest rate swap contracts	Other long-term obligations	—	957
Cross currency swap contract	Other current liabilities	—	526
Derivatives not designated as hedging instruments under ASC 815-20			
Foreign exchange forward contracts	Other current liabilities	106	128
Total liability derivatives		<u>\$ 106</u>	<u>\$ 2,636</u>

The changes in accumulated other comprehensive income (loss) (AOCI), net of tax, for our derivative and nonderivative hedging instruments designated as hedging instruments, net of tax, were as follows:

<i>In thousands</i>	2021	2020
Net unrealized loss on hedging instruments at January 1,	\$ (16,001)	\$ (15,103)
Unrealized gain (loss) on derivative instruments	607	(1,914)
Realized (gains) losses reclassified into net income (loss)	701	(242)
Net unrealized loss on hedging instruments at June 30,	<u>\$ (14,693)</u>	<u>\$ (17,259)</u>

Reclassification of amounts related to hedging instruments are included in interest expense in the Consolidated Statements of Operations. Included in the net unrealized gain (loss) on hedging instruments at June 30, 2021 and 2020 is a loss of \$14.4 million, net of tax, related to our nonderivative net investment hedge, which terminated in 2011. This loss on our net investment hedge will remain in AOCI until earnings are impacted by a sale or liquidation of the associated foreign operation.

A summary of the effect of netting arrangements on our financial position related to the offsetting of our recognized derivative assets and liabilities under master netting arrangements or similar agreements is as follows:

<i>Offsetting of Derivative Assets</i>	Gross Amounts of Recognized Assets Presented in the Consolidated Balance Sheets	Gross Amounts Not Offset in the Consolidated Balance Sheets		
		Derivative Financial Instruments	Cash Collateral Received	Net Amount
<i>In thousands</i>				
June 30, 2021	\$ 691	\$ (104)	\$ —	\$ 587
December 31, 2020	52	(52)	—	—
Offsetting of Derivative Liabilities				
<i>Offsetting of Derivative Liabilities</i>	Gross Amounts of Recognized Liabilities Presented in the Consolidated Balance Sheets	Gross Amounts Not Offset in the Consolidated Balance Sheets		
		Derivative Financial Instruments	Cash Collateral Pledged	Net Amount
<i>In thousands</i>				
June 30, 2021	\$ 106	\$ (104)	\$ —	\$ 2
December 31, 2020	2,636	(52)	—	2,584

Our derivative assets and liabilities subject to netting arrangements include foreign exchange forward and interest rate contracts with four counterparties at June 30, 2021 and six counterparties at December 31, 2020. No derivative asset or liability balance with any of our counterparties was individually significant at June 30, 2021 or December 31, 2020. Our derivative contracts with each of these counterparties exist under agreements that provide for the net settlement of all contracts through a single

payment in a single currency in the event of default. We have no pledges of cash collateral against our obligations, and we have not received pledges of cash collateral from our counterparties under the associated derivative contracts.

Cash Flow Hedges

As a result of our floating rate debt under our current credit facility, we are exposed to variability in our cash flows from changes in the applicable interest rate index. We enter into interest rate caps and swaps to reduce the variability of cash flows from increases in the LIBOR-based borrowing rates on our floating rate credit facility. These instruments do not protect us from changes to the applicable margin under our credit facility. At June 30, 2021, our LIBOR-based debt balance was \$31.1 million.

In October 2015, we entered into one interest rate swap, which was effective from August 31, 2016 and expired on June 23, 2020, to convert \$214 million of our LIBOR-based debt from a floating LIBOR interest rate to a fixed interest rate of 1.42% (excluding the applicable margin on the debt). The notional balance amortized to maturity at the same rate as required minimum payments on the outstanding term loan. This cash flow hedge was expected to be highly effective in achieving offsetting cash flows attributable to the hedged risk through the term of the hedge. Consequently, effective changes in the fair value of the interest rate swap were recognized as a component of other comprehensive income (loss) (OCI) and recognized in earnings when the hedged item affected earnings. The amounts paid or received on the hedge were recognized as adjustment to interest expense.

In March 2020, we entered into one interest rate swap, which was effective from June 30, 2020 to June 30, 2023, and converted \$240 million of our LIBOR-based debt from a floating LIBOR interest rate to a fixed interest rate of 0.617% (excluding the applicable margin). The notional balance amortized to maturity at the same rate of originally required amortizations on our outstanding term loan. Changes in the fair value of the interest rate swap were recognized as a component of OCI and recognized in earnings when the hedged item affected earnings. The amounts paid or received on the hedge was recognized as an adjustment to interest expense along with the earnings effect of the hedged item. On March 17, 2021 following the paydown of the term loan within the 2018 credit facility, we terminated the interest rate swap, and paid a fee of \$1.7 million to settle it, since the likelihood of LIBOR-based interest payments was no longer probable of occurring.

In April 2018, we entered into one cross-currency swap, which converted \$56.0 million of floating LIBOR-based U.S. dollar-denominated debt into 1.38% fixed rate euro-denominated debt. This cross-currency swap matured on April 30, 2021 and mitigated the risk associated with fluctuations in currency rates impacting cash flows related to U.S. dollar-denominated debt in a euro functional currency entity. Changes in the fair value of the cross-currency swap were recognized as a component of OCI and were recognized in earnings when the hedged item affected earnings. The amounts paid or received on the hedge were recognized as an adjustment to interest expense along with the earnings effect of the hedged item.

As a result of our forecasted inventory purchases in a non-functional currency, we are exposed to foreign exchange risk. We hedge portions of these purchases. During February 2021, we entered into foreign exchange option contracts for a total notional amount of \$77 million at a cost of \$1.1 million. The contracts mature ratably through the year with final maturity in October 2021. Changes in the fair values of the option contracts are recognized as a component of OCI and are recognized in product cost of revenues when the hedged item affects earnings.

The before-tax effects of our accounting for derivative instruments designated as hedges on AOCI were as follows:

Derivatives in ASC 815-20 Cash Flow Hedging Relationships	Amount of Gain (Loss) Recognized in OCI on Derivative		Gain (Loss) Reclassified from AOCI into Income	
	Location		Amount	
<i>In thousands</i>	2021	2020	2021	2020

Derivatives Not Designated as Hedging Relationships

We are also exposed to foreign exchange risk when we enter into non-functional currency transactions, both intercompany and third party. At each period-end, non-functional currency monetary assets and liabilities are revalued with the change recognized within other income (expense) in our Consolidated Statements of Operations. We enter into monthly foreign exchange forward contracts, which are not designated for hedge accounting, with the intent to reduce earnings volatility associated with currency exposures. As of June 30, 2021, a total of 37 contracts were offsetting our exposures from the euro, pound sterling, Indonesian rupiah, Canadian dollar, Australian dollar and various other currencies, with notional amounts ranging from \$98,000 to \$46.1 million.

The effect of our derivative instruments not designated as hedges on the Consolidated Statements of Operations was as follows:

Derivatives Not Designated as Hedging Instrument under ASC 815-20	Location	Gain (Loss) Recognized on Derivatives in Other Income (Expense)	
<i>In thousands</i>		2021	2020
Three Months Ended June 30,			
Foreign exchange forward contracts	Other income (expense), net	\$ (494)	\$ (904)
Interest rate cap contracts	Interest expense	—	—
Six Months Ended June 30,			
Foreign exchange forward contracts	Other income (expense), net	\$ (463)	\$ 589
Interest rate cap contracts	Interest expense	—	—

We will continue to monitor and assess our interest rate and foreign exchange risk and may institute additional derivative instruments to manage such risk in the future.

Convertible Note Hedge Transactions

We paid an aggregate amount of \$84.1 million for the Convertible Note Hedge Transactions. The Convertible Note Hedge Transactions cover, subject to anti-dilution adjustments substantially similar to those in the Convertible Notes, approximately 3.7 million shares of our common stock, the same number of shares initially underlying the Convertible Notes, at a strike price of approximately \$126.00, subject to customary adjustments. The Convertible Note Hedge Transactions will expire upon the maturity of the Convertible Notes, subject to earlier exercise or termination. The Convertible Note Hedge Transactions are expected generally to reduce the potential dilutive effect of the conversion of the Convertible Notes and/or offset any cash

payments we are required to make in excess of the principal amount of the converted notes, as the case may be, in the event that the market price per share of our common stock, as measured under the terms of the Convertible Note Hedge Transactions, is greater than the strike price of those Convertible Note Hedge Transactions. The Convertible Note Hedge Transactions meet the criteria in ASC 815-40 to be classified within Stockholders' Equity, and therefore the transactions are not revalued after their issuance.

We made a tax election to integrate the convertible notes and the call options. We are retaining the identification statements in our books and records, together with a schedule providing the accruals on the synthetic debt instruments. The accounting impact of this tax election makes the call options deductible as original issue discount for tax purposes over the term of the note, and results in a \$20.6 million deferred tax asset recognized through equity.

Warrant Transactions

In addition, concurrently with entering into the Convertible Note Hedge Transactions, we separately entered into privately-negotiated Warrant Transactions (the Warrant Transactions), whereby we sold to the Counterparties warrants to acquire, collectively, subject to anti-dilution adjustments, 3.7 million shares of our common stock at an initial strike price of \$180.00 per share, which represents a premium of 100% over the public offering price in the common stock issuance. We received aggregate proceeds of \$45.3 million from the Warrant Transactions with the Counterparties, with such proceeds partially offsetting the costs of entering into the Convertible Note Hedge Transactions. The warrants expire in June 2026. If the market value per share of our common stock, as measured under the Warrants Transactions, exceeds the strike price of the warrants, the warrants will have a dilutive effect on our earnings per share, unless we elect, subject to certain conditions, to settle the warrants in cash. The warrants meet the criteria in ASC 815-40 to be classified within Stockholders' Equity, and therefore the warrants are not revalued after issuance.

Note 8: Defined Benefit Pension Plans

We sponsor both funded and unfunded defined benefit pension plans offering death and disability, retirement, and special termination benefits for certain of our international employees, primarily in Germany, France, Indonesia, India, and Italy. The defined benefit obligation is calculated annually by using the projected unit credit method. The measurement date for the pension plans was December 31, 2020.

Amounts recognized on the Consolidated Balance Sheets consist of:

<i>In thousands</i>	June 30, 2021	December 31, 2020
Liabilities		
Current portion of pension benefit obligation in wages and benefits payable	\$ 3,569	\$ 3,069
Long-term portion of pension benefit obligation	116,666	119,457
Pension benefit obligation, net	<u>\$ 120,235</u>	<u>\$ 122,526</u>

Our asset investment strategy focuses on maintaining a portfolio using primarily insurance funds, which are accounted for as investments and measured at fair value, in order to achieve our long-term investment objectives on a risk-adjusted basis. Our general funding policy for these qualified pension plans is to contribute amounts sufficient to satisfy regulatory funding standards of the respective countries for each plan.

Net periodic pension benefit cost for our plans include the following components:

<i>In thousands</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Service cost	\$ 1,102	\$ 1,017	\$ 2,251	\$ 1,993
Interest cost	349	457	701	930
Expected return on plan assets	(88)	(134)	(177)	(280)
Amortization of prior service costs	17	16	34	32
Amortization of actuarial net loss	694	453	1,389	908
Net periodic benefit cost	<u>\$ 2,074</u>	<u>\$ 1,809</u>	<u>\$ 4,198</u>	<u>\$ 3,583</u>

The components of net periodic benefit cost, other than the service cost component, are included in total other income (expense) on the Consolidated Statements of Operations.

Note 9: Stock-Based Compensation

We grant stock-based compensation awards, including stock options, restricted stock units, phantom stock, and unrestricted stock units, under the Second Amended and Restated 2010 Stock Incentive Plan (Stock Incentive Plan). In the Stock Incentive Plan, we have 12,623,538 shares of common stock reserved and authorized for issuance subject to stock splits, dividends, and other similar events, and, at June 30, 2021, 5,345,201 shares were available for grant. We issue new shares of common stock upon the exercise of stock options or when vesting conditions on restricted stock units are fully satisfied. These shares are subject to a fungible share provision such that the authorized share available for grant is reduced by (i) one share for every one share subject to a stock option or share appreciation right granted under the Plan and (ii) 1.7 shares for every one share of common stock that was subject to an award other than an option or share appreciation right.

We also periodically award phantom stock units, which are settled in cash upon vesting and accounted for as liability-based awards, with no impact to the shares available for grant.

In addition, we maintain the Employee Stock Purchase Plan (ESPP), for which 160,181 shares of common stock were available for future issuance at June 30, 2021.

ESPP activity and stock-based grants other than stock options and restricted stock units were not significant for the three and six months ended June 30, 2021 and 2020.

Stock-Based Compensation Expense

Total stock-based compensation expense and the related tax benefit were as follows:

<i>In thousands</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Stock options	\$ 371	\$ 526	\$ 711	\$ 993
Restricted stock units	5,511	6,367	11,442	14,176
Unrestricted stock awards	206	206	433	412
Phantom stock units	1,225	1,060	2,342	1,493
Total stock-based compensation	\$ 7,313	\$ 8,159	\$ 14,928	\$ 17,074
Related tax benefit	\$ 1,318	\$ 1,420	\$ 2,681	\$ 3,187

Stock Options

A summary of our stock option activity is as follows:

	Shares	Weighted Average Exercise Price per Share	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value	Weighted Average Grant Date Fair Value
	(in thousands)		(years)	(in thousands)	
Outstanding, January 1, 2020	458	\$ 56.38	7.0	\$ 12,641	
Granted	73	87.27			\$ 26.72
Exercised	(47)	51.52		1,131	
Outstanding, June 30, 2020	484	\$ 61.48	7.3	\$ 4,871	
Outstanding, January 1, 2021	433	\$ 61.95	6.9	\$ 14,697	
Granted	—				\$ —
Exercised	(31)	66.97		1,121	
Forfeited	(6)	83.33			
Outstanding, June 30, 2021	396	\$ 61.25	6.4	\$ 15,349	
Exercisable, June 30, 2021	288	\$ 54.75	5.6	\$ 13,048	

At June 30, 2021, total unrecognized stock-based compensation expense related to nonvested stock options was \$1.7 million, which is expected to be recognized over a weighted average period of approximately 1.5 years.

The weighted average assumptions used to estimate the fair value of stock options granted and the resulting weighted average fair value are as follows:

	Six Months Ended June 30,	
	2021	2020
Expected volatility	— %	31.0 %
Risk-free interest rate	— %	1.4 %
Expected term (years)	N/A	5.3

There were no employee stock options granted for the three and six months ended June 30, 2021, and the three months ended June 30, 2020.

Restricted Stock Units

The following table summarizes restricted stock unit activity:

<i>In thousands, except fair value</i>	Number of Restricted Stock Units	Weighted Average Grant Date Fair Value	Aggregate Intrinsic Value
Outstanding, January 1, 2020	684		
Granted	189	\$ 85.97	
Released ⁽¹⁾	(230)		\$ 2,506
Forfeited	(13)		
Outstanding, June 30, 2020	630		
Outstanding, January 1, 2021	544	\$ 71.79	
Granted	203	98.94	
Released ⁽¹⁾	(194)	73.35	\$ 19,474
Forfeited	(33)	73.65	
Outstanding, June 30, 2021	520	81.98	
Vested but not released, June 30, 2021	10		\$ 989

⁽¹⁾ Shares released is presented as gross shares and does not reflect shares withheld by us for employee payroll tax obligations.

At June 30, 2021, total unrecognized compensation expense on restricted stock units was \$36.4 million, which is expected to be recognized over a weighted average period of approximately 1.9 years.

The weighted average assumptions used to estimate the fair value of performance-based restricted stock units granted with a service and market condition and the resulting weighted average fair value are as follows:

	Six Months Ended June 30,	
	2021	2020
Expected volatility	50.5 %	37.6 %
Risk-free interest rate	0.2 %	1.5 %
Expected term (years)	2.9	1.8
Weighted average fair value	\$ 113.75	\$ 94.28

There were no performance-based restricted stock units granted for the three months ended June 30, 2021 and 2020.

Note 10: Income Taxes

We determine the interim tax benefit (provision) by applying an estimate of the annual effective tax rate to the year-to-date pretax book income (loss) and adjusting for discrete items during the reporting period, if any. Tax jurisdictions with losses for which tax benefits cannot be realized are excluded.

Our tax rate for the three and six months ended June 30, 2021 of 1% and (31)%, respectively, differed from the federal statutory rate of 21% primarily due to reserves recognized on deferred purchase price receivables in the second quarter related to the 2020 divestiture of the majority of our Latin American business activities. This item was recognized for tax as a discrete and resulted in no tax benefit. Other rate drivers include losses in jurisdictions for which no benefit is recognized because of valuation allowances on deferred tax assets, the forecasted mix of earnings in domestic and international jurisdictions, a benefit related to stock-based compensation, and uncertain tax positions.

Our tax rate for the three and six months ended June 30, 2020 of (8)% and (30)%, respectively, differed from the federal statutory rate of 21% primarily due to a significant loss recognized in the second quarter for the divestiture of the majority of our Latin American business activities. This loss was recognized for tax as a discrete item and resulted in no tax benefit. Other rate drivers included losses in jurisdictions for which no benefit is recognized because of valuation allowances on deferred tax assets as well as the forecasted mix of earnings in domestic and international jurisdictions, a benefit related to stock-based compensation, and uncertain tax positions.

We classify interest expense and penalties related to unrecognized tax liabilities and interest income on tax overpayments as components of income tax expense. The net interest and penalties expense amounts recognized were as follows:

<i>In thousands</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Net interest and penalties expense	\$ 188	\$ 312	\$ (42)	\$ 620

Accrued interest and penalties recognized were as follows:

<i>In thousands</i>	June 30, 2021	December 31, 2020
Accrued interest	\$ 3,541	\$ 3,432
Accrued penalties	1,408	1,645

Unrecognized tax benefits related to uncertain tax positions and the amount of unrecognized tax benefits that, if recognized, would affect our effective tax rate were as follows:

<i>In thousands</i>	June 30, 2021	December 31, 2020
Unrecognized tax benefits related to uncertain tax positions	\$ 135,400	\$ 135,910
The amount of unrecognized tax benefits that, if recognized, would affect our effective tax rate	134,257	134,473

At June 30, 2021, we are under examination by certain tax authorities. We believe we have appropriately accrued for the expected outcome of all tax matters and do not currently anticipate that the ultimate resolution of these examinations will have a material adverse effect on our financial condition, future results of operations, or cash flows.

Based upon the timing and outcome of examinations, litigation, the impact of legislative, regulatory, and judicial developments, and the impact of these items on the statute of limitations, it is reasonably possible that the related unrecognized tax benefits could change from those recognized within the next twelve months. However, at this time, an estimate of the range of reasonably possible adjustments to the balance of unrecognized tax benefits cannot be made.

We file income tax returns in various jurisdictions. The material jurisdictions where we are subject to examination include, among others, the United States, France, Germany, Italy, Indonesia, and the United Kingdom.

On March 27, 2020, the U.S. Federal government passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act to provide economic relief from COVID-19. The CARES Act contains significant business tax provisions, which the Company has evaluated and determined will not have a material impact on the Company's financial statements or related disclosures.

The CARES Act also provides employer payroll tax credits for wages paid to employees who are unable to work during the COVID-19 outbreak and options to defer payroll tax payments. The Company has elected to defer remittances of payroll and other taxes into the future as provided for under the Act.

Note 11: Commitments and Contingencies

Guarantees and Indemnifications

We are often required to obtain standby letters of credit (LOCs) or bonds in support of our obligations for customer contracts. These standby LOCs or bonds typically provide a guarantee to the customer for our future performance, which usually covers the installation phase of a contract and may, on occasion, cover the operations and maintenance phase of outsourcing contracts.

Our available lines of credit, outstanding standby LOCs, and bonds were as follows:

<i>In thousands</i>	June 30, 2021	December 31, 2020
Credit facility		
Multicurrency revolving line of credit	\$ 500,000	\$ 500,000
Standby LOCs issued and outstanding	(65,471)	(64,948)
Net available for additional borrowings under the multicurrency revolving line of credit	<u>\$ 434,529</u>	<u>\$ 435,052</u>
Net available for additional standby LOCs under sub-facility	<u>\$ 234,529</u>	<u>\$ 235,052</u>
Unsecured multicurrency revolving lines of credit with various financial institutions		
Multicurrency revolving lines of credit	\$ 97,013	\$ 99,201
Standby LOCs issued and outstanding	(24,660)	(24,966)
Short-term borrowings	(7,354)	—
Net available for additional borrowings and LOCs	<u>\$ 64,999</u>	<u>\$ 74,235</u>
Unsecured surety bonds in force	<u>\$ 146,525</u>	<u>\$ 162,912</u>

In the event any such standby LOC or bond is called, we would be obligated to reimburse the issuer of the standby LOC or bond; however, as of August 5, 2021, we do not believe that any outstanding LOC or bond will be called.

We generally provide an indemnification related to the infringement of any patent, copyright, trademark, or other intellectual property right on software or equipment within our sales contracts, which indemnifies the customer from and pays the resulting costs, damages, and attorney's fees awarded against a customer with respect to such a claim provided that (a) the customer promptly notifies us in writing of the claim and (b) we have the sole control of the defense and all related settlement negotiations. We may also provide an indemnification to our customers for third-party claims resulting from damages caused by the negligence or willful misconduct of our employees/agents in connection with the performance of certain contracts. The terms of our indemnifications generally do not limit the maximum potential payments. It is not possible to predict the maximum potential amount of future payments under these or similar agreements.

Legal Matters

We are subject to various legal proceedings and claims of which the outcomes are subject to significant uncertainty. Our policy is to assess the likelihood of any adverse judgments or outcomes related to legal matters, as well as ranges of probable losses. A determination of the amount of the liability required, if any, for these contingencies is made after an analysis of each known issue. A liability would be recognized and charged to operating expense when we determine that a loss is probable and the amount can be reasonably estimated. Additionally, we disclose contingencies for which a material loss is reasonably possible, but not probable.

Warranty

A summary of the warranty accrual account activity is as follows:

<i>In thousands</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Beginning balance	\$ 39,334	\$ 48,719	\$ 41,390	\$ 53,242
New product warranties	900	1,000	1,686	2,070
Other adjustments and expirations, net	(683)	3,100	1,606	3,793
Claims activity	(3,515)	(8,365)	(7,884)	(14,305)
Effect of change in exchange rates	174	303	(588)	(43)
Ending balance	36,210	44,757	36,210	44,757
Less: current portion of warranty	20,299	33,039	20,299	33,039
Long-term warranty	\$ 15,911	\$ 11,718	\$ 15,911	\$ 11,718

Total warranty expense is classified within cost of revenues and consists of new product warranties issued, costs related to insurance and supplier recoveries, other changes and adjustments to warranties, and customer claims. Warranty expense was as follows:

<i>In thousands</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Total warranty expense	\$ 217	\$ 4,130	\$ 3,292	\$ 5,893

Warranty expense decreased during the quarter ended June 30, 2021 compared with the same period in 2020. The lower costs in 2021 are primarily the result of incremental specific reserves recognized in 2020, including \$2.0 million for electric and water products in Europe, Middle East, and Africa (EMEA) Device Solutions and \$0.7 million for electric products in North America (NAM) Networked Solutions.

Note 12: Restructuring

2020 Projects

In September 2020, our Board of Directors approved a restructuring plan (the 2020 Projects), which includes activities that continue our efforts to optimize our global supply chain and manufacturing operations, sales and marketing organizations, and other overhead. These projects are scheduled to be substantially complete by the end of 2022. The largest component of expected remaining costs to be recognized is related to a non-cash cumulative translation adjustment charge. Many of the affected employees are represented by unions or works councils, which require consultation, and potential restructuring projects may be subject to regulatory approval, both of which could impact the timing of charges, total expected charges, cost recognized, and planned savings in certain jurisdictions.

The total expected restructuring costs, the restructuring costs recognized, and the remaining expected restructuring costs related to the 2020 Projects were as follows:

<i>In thousands</i>	Total Expected Costs at June 30, 2021	Costs Recognized in Prior Periods	Costs Recognized During the Six Months Ended June 30, 2021	Expected Remaining Costs to be Recognized at June 30, 2021
Employee severance costs	\$ 31,260	\$ 36,225	\$ (4,965)	\$ —
Asset impairments & net loss (gain) on sale or disposal	6,861	6,944	(83)	—
Other restructuring costs	17,505	63	1,568	15,874
Total	\$ 55,626	\$ 43,232	\$ (3,480)	\$ 15,874

2018 Projects

In February 2018, our Board of Directors approved a restructuring plan (the 2018 Projects) to continue our efforts to optimize our global supply chain and manufacturing operations, research and development, and sales and marketing organizations. Actions under the 2018 Projects were substantially completed as of the end of 2020.

During the second quarter of 2021, we incurred additional legal costs related to a facility closure, partially offset by reduced severance costs.

The total expected restructuring costs, the restructuring costs recognized, and the remaining expected restructuring costs related to the 2018 Projects were as follows:

<i>In thousands</i>	Total Expected Costs at June 30, 2021	Costs Recognized in Prior Periods	Costs Recognized During the Six Months Ended June 30, 2021	Expected Remaining Costs to be Recognized at June 30, 2021
Employee severance costs	\$ 60,732	\$ 63,173	\$ (2,441)	\$ —
Asset impairments & net loss (gain) on sale or disposal	3,747	2,786	961	—
Other restructuring costs	19,889	15,217	3,172	1,500
Total	<u>\$ 84,368</u>	<u>\$ 81,176</u>	<u>\$ 1,692</u>	<u>\$ 1,500</u>

The following table summarizes the activity within the restructuring-related balance sheet accounts for the 2020 Projects and 2018 Projects during the six months ended June 30, 2021:

<i>In thousands</i>	Accrued Employee Severance	Asset Impairments & Net Loss (Gain) on Sale or Disposal	Other Accrued Costs	Total
Beginning balance, January 1, 2021	\$ 70,005	\$ —	\$ 2,621	\$ 72,626
Costs charged to expense	(7,406)	878	4,740	(1,788)
Cash payments	(11,569)	—	(3,088)	(14,657)
Cash receipts	—	2,007	—	2,007
Net assets disposed and impaired	—	(2,885)	—	(2,885)
Effect of change in exchange rates	(1,465)	—	(12)	(1,477)
Ending balance, June 30, 2021	<u>\$ 49,565</u>	<u>\$ —</u>	<u>\$ 4,261</u>	<u>\$ 53,826</u>

Asset impairments are determined at the asset group level. Revenues and net operating income from the activities we have exited or will exit under the restructuring projects are not material to our operating segments or consolidated results.

Other restructuring costs include expenses for employee relocation, professional fees associated with employee severance, costs to exit the facilities once the operations in those facilities have ceased, and other costs associated with the liquidation of any affected legal entities. Costs associated with restructuring activities are generally presented in the Consolidated Statements of Operations as restructuring, except for certain costs associated with inventory write-downs, which are classified within cost of revenues, and accelerated depreciation expense, which is recognized according to the use of the asset. Restructuring expense is part of the Corporate unallocated segment and does not impact the results of our operating segments.

The current portions of restructuring liabilities were \$26.5 million and \$31.7 million as of June 30, 2021 and December 31, 2020 and are classified within other current liabilities on the Consolidated Balance Sheets. The long-term portions of restructuring liabilities were \$27.3 million and \$40.9 million as of June 30, 2021 and December 31, 2020. The long-term portions of restructuring liabilities are classified within other long-term obligations on the Consolidated Balance Sheet and includes severance accruals and facility exit costs.

Note 13: Shareholders' Equity

Preferred Stock

We have authorized the issuance of 10 million shares of preferred stock with no par value. In the event of a liquidation, dissolution, or winding up of the affairs of the corporation, whether voluntary or involuntary, the holders of any outstanding preferred stock would be entitled to be paid a preferential amount per share to be determined by the Board of Directors prior to any payment to holders of common stock. There was no preferred stock issued or outstanding at June 30, 2021 or December 31, 2020.

Issuance of Common Stock

On March 12, 2021, we closed the sale of 4,472,222 shares of our common stock in a public offering, resulting in net proceeds to us of approximately \$389.4 million, after deducting underwriters' discounts of the offering.

Convertible Note Hedge Transactions

We paid an aggregate amount of \$84.1 million for the Convertible Note Hedge Transactions. The Convertible Note Hedge Transactions cover, subject to anti-dilution adjustments substantially similar to those in the Convertible Notes, approximately 3.7 million shares of our common stock, the same number of shares initially underlying the Convertible Notes, at a strike price of approximately \$126.00, subject to customary adjustments. The Convertible Note Hedge Transactions will expire upon the maturity of the Convertible Notes, subject to earlier exercise or termination. The Convertible Note Hedge Transactions are expected generally to reduce the potential dilutive effect of the conversion of our Convertible Notes and/or offset any cash payments we are required to make in excess of the principal amount of the converted notes, as the case may be, in the event the price per share of our common stock, as measured under the terms of the Convertible Note Hedge Transactions, is greater than the strike price of the Convertible Note Hedge Transactions. The Convertible Note Hedge Transactions meet the criteria in ASC 815-40 to be classified within Stockholders' Equity, and therefore the Convertible Note Hedge Transactions are not revalued after their issuance.

We made a tax election to integrate the convertible notes and the call options. We are retaining the identification statements in our books and records, together with a schedule providing the accruals on the synthetic debt instruments. The accounting impact of this tax election makes the call options deductible as original issue discount for tax purposes over the term of the note, and results in a \$20.6 million deferred tax asset recognized through equity.

Warrant Transactions

In addition, concurrently with entering into the Convertible Note Hedge Transactions, we separately entered into privately-negotiated Warrant Transactions, whereby we sold to the Counterparties warrants to acquire, collectively, subject to anti-dilution adjustments, 3.7 million shares of our common stock at an initial strike price of \$180.00 per share, which represents a premium of 100% over the public offering price in the common stock issuance. We received aggregate proceeds of \$45.3 million from the Warrant Transactions with the Counterparties, with such proceeds partially offsetting the costs of entering into the Convertible Note Hedge Transactions. The warrants expire in June 2026. If the market value per share of our common stock, as measured under the Warrant Transactions, exceeds the strike price of the warrants, the warrants will have a dilutive effect on our earnings per share, unless we elect, subject to certain conditions, to settle the warrants in cash. The warrants meet the criteria in ASC 815-40 to be classified within Stockholders' Equity, and therefore the warrants are not revalued after issuance.

Accumulated Other Comprehensive Income (Loss)

The changes in the components of AOCI, net of tax, were as follows:

<i>In thousands</i>	Foreign Currency Translation Adjustments	Net Unrealized Gain (Loss) on Derivative Instruments	Net Unrealized Gain (Loss) on Nonderivative Instruments	Pension Benefit Obligation Adjustments	Accumulated Other Comprehensive Income (Loss)
Balances at January 1, 2020	\$ (157,999)	\$ (723)	\$ (14,380)	\$ (31,570)	\$ (204,672)
OCI before reclassifications	(14,135)	(1,914)	—	83	(15,966)
Amounts reclassified from AOCI	52,088	(242)	—	965	52,811
Total other comprehensive income (loss)	37,953	(2,156)	—	1,048	36,845
Balances at June 30, 2020	\$ (120,046)	\$ (2,879)	\$ (14,380)	\$ (30,522)	\$ (167,827)
Balances at January 1, 2021	\$ (84,843)	\$ (1,621)	\$ (14,380)	\$ (37,682)	\$ (138,526)

Note 14: Fair Value of Financial Instruments

The fair values at June 30, 2021 and December 31, 2020 do not reflect subsequent changes in the economy, interest rates, tax rates, and other variables that may affect the determination of fair value.

<i>In thousands</i>	June 30, 2021		December 31, 2020	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Credit facility				
USD denominated term loan	\$ 30,014	\$ 30,195	\$ 532,625	\$ 520,347
Multicurrency revolving line of credit	—	—	—	—
Senior notes	—	—	388,311	410,000
Convertible notes	449,020	476,698	—	—

The following methods and assumptions were used in estimating fair values:

Cash and cash equivalents: Due to the liquid nature of these instruments, the carrying amount approximates fair value (Level 1).

Credit Facility - term loan and multicurrency revolving line of credit: The term loan and the revolver are not traded publicly. The fair values, which are determined based upon a hypothetical market participant, are calculated using a discounted cash flow model with Level 2 inputs, including estimates of incremental borrowing rates for debt with similar terms, maturities, and credit profiles. Refer to Note 6: Debt for a further discussion of our debt.

Senior Notes and Convertible Notes: The Senior Notes and Convertible Notes are not registered securities nor listed on any securities exchange but may be actively traded by qualified institutional buyers. The fair value is estimated using Level 1 inputs, as it is based on quoted prices for these instruments in active markets.

Derivatives: See Note 7: Derivative Financial Instruments for a description of our methods and assumptions in determining the fair value of our derivatives, which were determined using Level 2 inputs. Each derivative asset and liability has a carrying value equal to fair value.

Note 15: Segment Information

We operate under the Itron brand worldwide and manage and report under three operating segments: Device Solutions, Networked Solutions, and Outcomes.

We have three GAAP measures of segment performance: revenues, gross profit (gross margin), and operating income (operating margin). Intersegment revenues are minimal. Certain operating expenses are allocated to the operating segments based upon internally established allocation methodologies. Corporate operating expenses, interest income, interest expense, other income (expense), and the income tax provision (benefit) are neither allocated to the segments, nor are they included in the measure of segment performance. In addition, we allocate only certain production assets and intangible assets to our operating segments. We do not manage the performance of the segments on a balance sheet basis.

Segment Products

Device Solutions – This segment primarily includes hardware products used for measurement, control, or sensing that do not have communications capability embedded for use with our broader Itron systems, i.e., hardware-based products not part of a complete "end-to-end" solution. Examples from the Device Solutions portfolio include: standard endpoints that are shipped without Itron communications, such as our standard gas, electricity, and water meters for a variety of global markets and adhering to regulations and standards within those markets, as well as our heat and allocation products; communicating meters that are not a part of an Itron end-to-end solution such as Smart Spec meters; and the implementation and installation of non-communicating devices, such as gas regulators.

Networked Solutions – This segment primarily includes a combination of communicating devices (e.g., smart meters, modules, endpoints, and sensors), network infrastructure, and associated application software designed and sold as a complete solution for acquiring and transporting robust application-specific data. Networked Solutions includes products and software for the implementation, installation, and management of communicating devices and data networks. Examples from the Networked

Solutions portfolio include: communicating measurement, control, or sensing endpoints such as our Itron® and OpenWay® Riva meters, Itron traditional ERT® technology, Intelis smart gas or water meters, 500G gas communication modules, 500W water communication modules; GenX networking products, network modules and interface cards; and specific network control and management software applications. The Industrial Internet of Things (IIoT) solutions supported by this segment include automated meter reading (AMR), advanced metering infrastructure (AMI), smart grid and distribution automation, smart street lighting and an ever-growing set of smart city applications such as traffic management, smart parking, air quality monitoring, electric vehicle charging, customer engagement, digital signage, acoustic (e.g., gunshot) detection, and leak detection and mitigation for both gas and water systems. Our IIoT platform allows all of these industry and smart city applications to be run and managed on a single, multi-purpose network.

Outcomes – This segment primarily includes our value-added, enhanced software and services in which we manage, organize, analyze, and interpret data to improve decision making, maximize operational profitability, drive resource efficiency, and deliver results for consumers, utilities, and smart cities. Outcomes places an emphasis on delivering to Itron customers high-value, turn-key, digital experiences by leveraging the footprint of our Device Solutions and Networked Solutions segments. The revenues from these offerings are primarily recurring in nature and would include any direct management of Device Solutions, Networked Solutions, and other products on behalf of our end customers. Examples from the Outcomes portfolio include: our meter data management and analytics offerings; our managed service solutions including Network-as-a-Service (NaaS) and Platform-as-a-Service (PaaS), forecasting software and services; our Distributed Intelligence suite of applications and services; and any consulting-based engagement. Within the Outcomes segment, we also identify new business models, including performance-based contracting, to drive broader portfolio offerings across utilities and cities.

Revenues, gross profit, and operating income associated with our operating segments were as follows:

<i>In thousands</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Product revenues				
Device Solutions	\$ 160,647	\$ 126,950	\$ 330,978	\$ 327,118

Total other income (expense)	(25,729)	(12,299)	(38,428)	(21,957)
Loss before income taxes	\$ (32,661)	\$ (57,686)	\$ (14,420)	\$ (40,974)

For the three and six months ended June 30, 2021, no customer represented more than 10% of total company revenue. During the three and six months ended June 30, 2020, one customer represented 13% and 12% of total company revenues.

Revenues by region were as follows:

<i>In thousands</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
United States and Canada	\$ 308,673	\$ 369,862	\$ 634,209	\$ 755,187
Europe, Middle East, and Africa	150,851	107,799	311,220	274,783
Asia Pacific and Latin America ⁽¹⁾	29,888	31,933	63,557	78,039
Total Company	\$ 489,412	\$ 509,594	\$ 1,008,986	\$ 1,108,009

⁽¹⁾ On June 25, 2020, we sold our Latin American operations. We continue to sell into the region through an exclusive distributor.

Depreciation expense is allocated to the operating segments based upon each segment's use of the assets. All amortization expense is recognized within Corporate unallocated. Depreciation and amortization of intangible assets expense associated with our operating segments was as follows:

<i>In thousands</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Device Solutions	\$ 5,609	\$ 6,062	\$ 11,797	\$ 12,497
Networked Solutions	4,252	4,333	8,527	8,070
Outcomes	1,129	1,412	2,363	2,805
Corporate unallocated	10,119	12,392	20,232	24,858
Total Company	\$ 21,109	\$ 24,199	\$ 42,919	\$ 48,230

Note 16: Revenues

A summary of significant net changes in the contract assets and the contract liabilities balances during the period is as follows:

<i>In thousands</i>	Contract Liabilities, Less Contract Assets
Beginning balance, January 1, 2021	\$ 98,388
Revenues recognized from beginning contract liability	(78,600)
Cumulative catch-up adjustments	10,169
Increases due to amounts collected or due	161,728
Revenues recognized from current period increases	(59,962)
Other	(141)
Ending balance, June 30, 2021	\$ 131,582

On January 1, 2021, total contract assets were \$49.8 million and total contract liabilities were \$148.2 million. On June 30, 2021, total contract assets were \$33.2 million and total contract liabilities were \$164.8 million. The contract assets primarily relate to contracts that include a retention clause and allocations related to contracts with multiple performance obligations. The contract liabilities primarily relate to deferred revenue, such as extended warranty and maintenance cost. The cumulative catch-up adjustments relate to contract modifications, measure-of-progress changes, and changes in the estimate of the transaction price.

Transaction price allocated to the remaining performance obligations

Total transaction price allocated to remaining performance obligations represents committed but undelivered products and services for contracts and purchase orders at period end. Twelve-month remaining performance obligations represent the portion of total transaction price allocated to remaining performance obligations that we estimate will be recognized as revenue over the next 12 months. Total transaction price allocated to remaining performance obligations is not a complete measure of our future revenues as we also receive orders where the customer may have legal termination rights but are not likely to terminate.

Total transaction price allocated to remaining performance obligations related to contracts is approximately \$1.2 billion for the next twelve months and approximately \$1.6 billion for periods longer than 12 months. The total remaining performance obligations consist of product and service components. The service component relates primarily to maintenance agreements for which customers pay a full year's maintenance in advance, and service revenues are generally recognized over the service period. Total transaction price allocated to remaining performance obligations also includes our extended warranty contracts,

for which revenue is recognized over the warranty period, and hardware, which is recognized as units are delivered. The estimate of when remaining performance obligations will be recognized requires significant judgment.

Cost to obtain a contract and cost to fulfill a contract with a customer

Cost to obtain a contract and costs to fulfill a contract were capitalized and amortized using a systematic rational approach to align with the transfer of control of underlying contracts with customers. While amounts were capitalized, they are not material.

Disaggregation of revenue

Refer to Note 15: Segment Information and the Consolidated Statements of Operations for disclosure regarding the disaggregation of revenue into categories, which depict how revenue and cash flows are affected by economic factors. Specifically, our operating segments and geographical regions as disclosed, and categories for products, which include hardware and software and services, are presented.

Note 17: Sale of Business

Latin America Divestiture

On June 25, 2020, we closed on the sale of five subsidiaries comprising our manufacturing and sales operations in Latin America to buyers led by Instalación Profesional y Tecnologías del Centro S.A. de C.V., a Mexican company doing business as Accell in Brazil (Accell), through the execution of various definitive stock purchase agreements. The sale of these Latin America-based operations is part of our continued strategy to improve profitability and focus on growing our Networked Solutions and Outcomes businesses in Latin America and throughout the world. We retained the intellectual property rights to our products sold in Latin America. As part of the transaction, we entered into an intellectual property license agreement whereby Accell pays a royalty on certain products manufactured by Accell using licensed Company intellectual property. In addition, Accell serves as the exclusive distributor for our Device Solutions, Networked Solutions, and Outcomes product and service offerings in Latin America.

The total sales price of \$35.0 million included deferred payments of \$21.1 million for working capital, which was to be paid in full by December 31, 2020, as evidenced by a promissory note, and the remainder in cash (\$4.5 million) and other deferred consideration.

In January 2021, we agreed to extend the payment terms on the remaining outstanding working capital balance of \$18.4 million. Accell had agreed to make monthly payments, including interest, through September 2022, under which we received full payments for January through March and partial payments in April and May (totaling \$3.8 million including \$0.7 million in interest). In July 2021, we received a revised payment plan for the remaining working capital note receivable, as well as the other deferred transaction receivables. Based on Accell's failure to make timely payments, continued requests to defer payments significantly beyond the original maturity of the working capital note, and the negative impact of the COVID-19 pandemic on the Latin American markets, we determined to fully reserve the working capital and other deferred receivables, recognizing an additional loss on sale of business for the three and six months ended June 30, 2021 of \$24.7 million and \$26.1 million.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the unaudited consolidated financial statements and notes included in this report and with the consolidated financial statements and the notes thereto for the fiscal year ended December 31, 2020 filed with the Securities and Exchange Commission (SEC) in our Annual Report on Form 10-K on February 24, 2021 (2020 Annual Report).

The objective of Management's Discussion and Analysis is to provide our assessment of the financial condition and results of operations including an evaluation of our liquidity and capital resources along with material events occurring during the year. The discussion and analysis focuses on material events and uncertainties known to management that are reasonably likely to cause reported financial information not to be necessarily indicative of future operating results or of future financial condition. In addition, we address matters that are reasonably likely based on management's assessment to have a material impact on future operations. We expect that the analysis will enhance a reader's understanding of our financial condition, cash flows, and other changes in financial condition and results of operations.

Documents we provide to the SEC are available free of charge under the Investors section of our website at www.itron.com as soon as practicable after they are filed with or furnished to the SEC. In addition, these documents are available at the SEC's website (<http://www.sec.gov>).

Certain Forward-Looking Statements

This report contains, and our officers and representatives may from time to time make, "forward-looking statements" within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements are neither historical factors nor assurances of future performance. These statements are based on our expectations about, among others, revenues, operations, financial performance, earnings, liquidity, earnings per share, cash flows and restructuring activities including headcount reductions and other cost savings initiatives. This document reflects our current strategy, plans and expectations and is based on information currently available as of the date of this Quarterly Report on Form 10-Q. When we use words such as "expect", "intend", "anticipate", "believe", "plan", "goal", "seek", "project", "estimate", "future", "strategy", "objective", "may", "likely", "should", "will", "will continue", and similar expressions, including related to future periods, they are intended to identify forward-looking statements. Forward-looking statements rely on a number of assumptions and estimates. Although we believe the estimates and assumptions upon which these forward-looking statements are based are reasonable, any of these estimates or assumptions could prove to be inaccurate and the forward-looking statements based on these estimates and assumptions could be incorrect. Our operations involve risks and uncertainties, many of which are outside our control, and any one of which, or a combination of which, could materially affect our results of operations and whether the forward-looking statements ultimately prove to be correct. Actual results and trends in the future may differ materially from those suggested or implied by the forward-looking statements depending on a variety of factors. Therefore, you should not rely on any of these forward-looking statements. Some of the factors that we believe could affect our results include our ability to execute on our restructuring plan, our ability to achieve estimated cost savings, the rate and timing of customer demand for our products, rescheduling of current customer orders, changes in estimated liabilities for product warranties, adverse impacts of litigation, changes in laws and regulations, our dependence on new product development and intellectual property, future acquisitions, changes in estimates for stock-based and bonus compensation, increasing volatility in foreign exchange rates, international business risks, uncertainties caused by adverse economic conditions, including, without limitation those resulting from extraordinary events or circumstances such as the COVID-19 pandemic and other factors that are more fully described in Part I, Item 1A: Risk Factors included in our 2020 Annual Report and other reports on file with the SEC. We undertake no obligation to update or revise any forward-looking statement, whether written or oral.

The impact caused by the ongoing COVID-19 pandemic includes uncertainty as to the duration, spread, severity, and any resurgence of the COVID-19 pandemic including other factors contributing to infection rates, such as reinfection or mutation of the virus, the effectiveness or widespread availability and application of vaccines, the duration and scope of related government orders and restrictions, impact on overall demand, impact on our customers' businesses and workforce levels, disruptions of our business and operations, including the impact on our employees, limitations on, or closures of, our facilities, or the business and operations of our customers or suppliers. Our estimates and statements regarding the impact of COVID-19 are made in good faith to provide insight to our current and future operating and financial environment and any of these may materially change due to factors outside our control. For more information on risks associated with the COVID-19 pandemic, please see our risk in Part I, Item 1A: Risk Factors in our 2020 Annual Report.

Overview

We are a technology and service company, and we are a leader in the Industrial Internet of Things (IIoT). We offer solutions that enable utilities and municipalities to safely, securely and reliably operate their critical infrastructure. Our solutions include the deployment of smart networks, software, services, devices, sensors, and data analytics that allow our customers to manage assets, secure revenue, lower operational costs, improve customer service, improve safety, and enable efficient management of valuable resources. Our comprehensive solutions and data analytics address the unique challenges facing the energy, water, and municipality sectors, including increasing demand on resources, non-technical loss, leak detection, environmental and regulatory compliance, and improved operational reliability.

We operate under the Itron brand worldwide and manage and report under three operating segments: Device Solutions, Networked Solutions, and Outcomes. The product and operating definitions of the three segments are as follows:

Device Solutions – This segment primarily includes hardware products used for measurement, control, or sensing that do not have communications capability embedded for use with our broader Itron systems, i.e., hardware-based products not part of a complete "end-to-end" solution. Examples from the Device Solutions portfolio include: standard endpoints that are shipped without Itron communications, such as our standard gas, electricity, and water meters for a variety of global markets and adhering to regulations and standards within those markets, as well as our heat and allocation products; communicating meters that are not a part of an Itron end-to-end solution such as Smart Spec meters; and the implementation and installation of non-communicating devices, such as gas regulators.

Networked Solutions – This segment primarily includes a combination of communicating devices (e.g., smart meters, modules, endpoints, and sensors), network infrastructure, and associated application software designed and sold as a complete solution for acquiring and transporting robust application-specific data. Networked Solutions includes products and software for the

implementation, installation, and management of communicating devices and data networks. Examples from the Networked Solutions portfolio include: communicating measurement, control, or sensing endpoints such as our Itron® and OpenWay® Riva meters, Itron traditional ERT® technology, Intelis smart gas or water meters, 500G gas communication modules, 500W water communication modules; GenX networking products, network modules and interface cards; and specific network control and management software applications. The Industrial Internet of Things (IIoT) solutions supported by this segment include automated meter reading (AMR), advanced metering infrastructure (AMI), smart grid and distribution automation, smart street lighting and an ever-growing set of smart city applications such as traffic management, smart parking, air quality monitoring, electric vehicle charging, customer engagement, digital signage, acoustic (e.g., gunshot) detection, and leak detection and mitigation for both gas and water systems. Our IIoT platform allows all of these industry and smart city applications to be run and managed on a single, multi-purpose network.

Outcomes – This segment primarily includes our value-added, enhanced software and services in which we manage, organize, analyze, and interpret data to improve decision making, maximize operational profitability, drive resource efficiency, and deliver results for consumers, utilities, and smart cities. Outcomes places an emphasis on delivering to Itron customers high-value, turn-key, digital experiences by leveraging the footprint of our Device Solutions and Networked Solutions segments. The revenues from these offerings are primarily recurring in nature and would include any direct management of Device Solutions, Networked Solutions, and other products on behalf of our end customers. Examples from the Outcomes portfolio include: our meter data management and analytics offerings; our managed service solutions including Network-as-a-Service (NaaS) and Platform-as-a-Service (PaaS), forecasting software and services; our Distributed Intelligence suite of applications and services; and any consulting-based engagement. Within the Outcomes segment, we also identify new business models, including performance-based contracting, to drive broader portfolio offerings across utilities and cities.

We have three measures of segment performance: revenues, gross profit (margin), and operating income (margin). Intersegment revenues are minimal. Certain operating expenses are allocated to the operating segments based upon internally established allocation methodologies. Interest income, interest expense, other income (expense), the income tax provision (benefit), and certain corporate operating expenses are neither allocated to the segments nor included in the measures of segment performance.

Non-GAAP Measures

To supplement our consolidated financial statements, which are prepared in accordance with accounting principles generally accepted in the United States (GAAP), we use certain adjusted or non-GAAP financial measures, including non-GAAP operating expense, non-GAAP operating income, non-GAAP net income, non-GAAP diluted earnings per share (EPS), adjusted EBITDA, adjusted EBITDA margin, constant currency, and free cash flow. We provide these non-GAAP financial measures because we believe they provide greater transparency and represent supplemental information used by management in its financial and operational decision making. We exclude certain costs in our non-GAAP financial measures as we believe the net result is a measure of our core business. We believe these measures facilitate operating performance comparisons from period to period by eliminating potential differences caused by the existence and timing of certain expense items that would not otherwise be apparent on a GAAP basis. Non-GAAP performance measures should be considered in addition to, and not as a substitute for, results prepared in accordance with GAAP. We strongly encourage investors and shareholders to review our financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure. Our non-GAAP financial measures may be different from those reported by other companies.

In our discussions of the operating results below, we sometimes refer to the impact of foreign currency exchange rate fluctuations, which are references to the differences between the foreign currency exchange rates we use to convert operating results from local currencies into U.S. dollars for reporting purposes. We also use the term "constant currency", which represents results adjusted to exclude foreign currency exchange rate impacts. We calculate the constant currency change as the difference between the current period results translated using the current period currency exchange rates and the comparable prior period's results restated using current period currency exchange rates. We believe the reconciliations of changes in constant currency provide useful supplementary information to investors in light of fluctuations in foreign currency exchange rates.

Refer to the *Non-GAAP Measures* section below on pages 47-49 for information about these non-GAAP measures and the detailed reconciliation of items that impacted free cash flow, non-GAAP operating expense, non-GAAP operating income, non-GAAP net income, adjusted EBITDA, and non-GAAP diluted EPS in the presented periods.

Total Company Highlights

Highlights and significant developments for the three months ended June 30, 2021 compared with the three months ended June 30, 2020

- Revenues were \$489.4 million compared with \$509.6 million in 2020, a decrease of \$20.2 million, or 4%
- Gross margin was 30.6%, compared with 27.2% in 2020
- Operating expenses decreased \$27.1 million, or 15%, compared with 2020
- Net loss attributable to Itron, Inc. was \$33.1 million compared with net loss of \$62.8 million in 2020
- GAAP diluted EPS increased by \$0.83 to a diluted loss per share of \$0.73 in 2021
- Non-GAAP net income attributable to Itron, Inc. was \$12.6 million compared with \$1.3 million in 2020
- Non-GAAP diluted EPS was \$0.28, an increase of \$0.25 compared with 2020
- Adjusted EBITDA was \$36.1 million compared with \$31.2 million in 2020
- Total backlog was \$3.5 billion and twelve-month backlog was \$1.4 billion at June 30, 2021, compared with \$2.9 billion and \$1.3 billion at June 30, 2020

Highlights and significant developments for the six months ended June 30, 2021 compared with the six months ended June 30, 2020

- Revenues were \$1.0 billion compared with \$1.1 billion in 2020, a decrease of \$99.0 million, or 9%
- Gross margin was 31.4% compared with 28.0% in 2020
- Operating expenses decreased \$36.2 million, or 11%, compared with 2020
- Net loss attributable to Itron, Inc. was \$20.5 million, compared with net loss of \$54.1 million in 2020
- GAAP diluted EPS increased by \$0.88 to a diluted loss per share of \$0.47 in 2021
- Non-GAAP net income attributable to Itron, Inc. was \$34.6 million compared with \$24.3 million in 2020
- Non-GAAP diluted EPS was \$0.79, an increase of \$0.19 compared with 2020
- Adjusted EBITDA was \$85.9 million compared with \$83.2 million in 2020

Senior Notes Redemption

On March 9, 2021, we submitted a Notice of Redemption to the trustee to redeem all outstanding Senior Notes at a redemption price of 102.50%, in accordance with the indenture governing the Senior Notes, totaling \$410.0 million. As of April 8, 2021 the Senior Notes were fully discharged, and no principal or unpaid interest remains outstanding. The 2.5%, or \$10.0 million, early redemption premium and write off of \$11.1 million prepaid debt fees were recognized upon redemption in the second quarter of 2021. See Item 1: Financial Statements (Unaudited), Note 6: Debt, included in this Quarterly Report on Form 10-Q, for further details of the redemption.

Reserve on Receivables from Sale of Business

On June 25, 2020, we closed on the sale of five subsidiaries comprising our manufacturing and sales operations in Latin America to buyers led by Instalación Profesional y Tecnologías del Centro S.A. de C.V., a Mexican company doing business as Accell in Brazil (Accell), through the execution of various definitive stock purchase agreements. The sale of these Latin America-based operations is part of our continued strategy to improve profitability and focus on growing our Networked Solutions and Outcomes businesses in Latin America and throughout the world. We retained the intellectual property rights to our products sold in Latin America. As part of the transaction, we entered into an intellectual property license agreement whereby Accell pays a royalty on certain products manufactured by Accell using licensed Company intellectual property. In addition, Accell serves as the exclusive distributor for our Device Solutions, Networked Solutions, and Outcomes product and service offerings in Latin America. The total sales price of \$35.0 million included deferred payments of \$21.1 million for working capital, which was to be paid in full by December 31, 2020, as evidenced by a promissory note, and the remainder in cash (\$4.5 million) and other deferred consideration.

In January 2021, we agreed to extend the payment terms on the remaining outstanding working capital balance of \$18.4 million. Accell had agreed to make monthly payments, including interest, through September 2022, under which we received full payments for January through March and partial payments in April and May (totaling \$3.8 million including \$0.7 million in interest). In July 2021, we received a revised payment plan for the remaining working capital note receivable, as well as the other deferred transaction receivables. Based on Accell's failure to make timely payments, continued requests to defer payments significantly beyond the original maturity of the working capital note, and the negative impact of the COVID-19 pandemic on the Latin American markets, we determined to fully reserve the working capital and other deferred receivables, recognizing an

additional loss on sale of business for the three and six months ended June 30, 2021 of \$24.7 million and \$26.1 million.

Outlook for 2021 due to COVID-19

The COVID-19 pandemic has had global economic impacts including disrupting customer demand and global supply chains, resulting in market volatility. The extent of the recent pandemic and its ongoing impact on our operations is volatile, but is being monitored closely by our management. During portions of the first half of 2020 certain of our European factories were closed due to government actions and local conditions, and any further closures that may be imposed on us could impact our results for 2021. New variants of the virus may cause previously lifted restrictions to be reinstated, which could result in more disruptions. Incremental costs we have incurred related to COVID-19, such as personal protective equipment, increased cleaning and sanitizing of our facilities, and other such items, have not been material to date. As economies have reopened, global supply chains have struggled to keep pace with rapidly changing demand. The resulting supply constraints could appear across a variety of areas including mechanical, electrical and logistics portions of the supply chain, which could impact our ability to ship products in a timely manner. At this time, we have not identified any significant decrease in long-term customer demand for our products and services. Certain of our customers' projects and deployments have continued to shift later into 2021 and beyond. For more information on risks associated with the COVID-19 pandemic, please see our risk in Part I, Item 1A, Risk Factors in our 2020 Annual Report.

The COVID-19 pandemic remains a rapidly evolving situation with varying impacts on the locations in which we do business. Changes in the mix of earnings or losses from our different geographical operations, as well as any future enactment of tax legislation and other factors, may result in more volatile quarterly and annual effective tax rates. The detrimental impacts to financial results may be partially offset by financial assistance from the U.S. or the municipalities in which we operate, including employer payroll tax credits for wages paid to employees who are unable to work during the COVID-19 pandemic. Other benefits, including options to defer payroll tax payments and additional deductions, have resulted in reduced cash costs in 2020, but will increase cash outlays during the fourth quarter of 2021 and into 2022.

Definition of an Endpoint Under Management

An "endpoint under management" is a unique endpoint, or data from that endpoint, which Itron manages via our networked platform or a third party's platform that is connected to one or multiple types of endpoints. Itron's management of an endpoint occurs when on behalf of our client, we manage one or more of the physical endpoints, operating system, data, application, data analytics, and/or outcome deriving from this unique endpoint. Itron has the ability to monitor and/or manage endpoints or the data from the endpoints via NaaS, Software-as-a-Service (SaaS), and/or a licensed offering at a remote location designated by our client. Our offerings typically, but not exclusively, provide an Itron product or Itron certified partner product to our clients that has the capability of one-way communication or two-way communication of data that may include remote product configuration and upgradability. Examples of these offerings include our Temetra, OpenWay®, OpenWay® Riva and Gen X.

This metric primarily includes Itron or third-party endpoints deployed within the electricity, water, and gas utility industries, as well as within cities and municipalities around the globe. Endpoints under management also include smart communication modules and network interface cards (NICs) within Itron's platforms. At times, these NICs are communicating modules that were sold separately from an Itron product directly to our customers or to third party manufacturers for use in endpoints such as

electric, water, and gas meters; streetlights and other types of IIoT sensors and actuators; sensors and other capabilities that the end customer would like Itron to connect and manage on their behalf.

The "endpoint under management" metric only accounts for the specific, unique endpoint itself, though that endpoint may have multiple applications, services, outcomes, and higher margin recurring offerings associated with it. This metric does not reflect the multi-application value that can be derived from the individual endpoint itself. Additionally, this metric excludes those endpoints that are non-communicating, non-Itron system hardware component sales or licensed applications that Itron does not manage the unit or the data from that unit directly.

While the one-time sale of the platform and endpoints are primarily delivered via our Networked Solutions segment, our enhanced solutions, on-going monitoring, maintenance, software, analytics, and distributed intelligent applications are predominantly recognized in our Outcomes segment. We would anticipate the opportunity to increase our penetration of Outcomes applications, software, and managed applications will increase as our endpoints under management increases. Management believes using the endpoints under management metric enhances insight to the strategic and operational direction of our Networked Solutions and Outcomes segments to serve clients for years after their one-time installation of an endpoint.

A summary of our endpoints under management is as follows:

<i>Units in thousands</i>	June 30,	
	2021	2020
Endpoints under management	78,208	70,501

Results of Operations

Revenues and Gross Margin

The actual results of and effects of changes in foreign currency exchange rates on revenues and gross profit were as follows:

<i>In thousands</i>	Three Months Ended June 30,		Effect of Changes in Foreign Currency Exchange Rates	Constant Currency Change	Total Change
	2021	2020			
Total Company					
Revenues	\$ 489,412	\$ 509,594	\$ 15,606	\$ (35,788)	\$ (20,182)
Gross profit	149,875	138,517	1,115	10,243	11,358

<i>In thousands</i>	Six Months Ended June 30,		Effect of Changes in Foreign Currency Exchange Rates	Constant Currency Change	Total Change
	2021	2020			
Total Company					
Revenues	\$ 1,008,986	\$ 1,108,009	\$ 33,298	\$ (132,321)	\$ (99,023)
Gross profit	316,919	310,083	4,127	2,709	6,836

Revenues - Three months ended June 30, 2021 vs. Three months ended June 30, 2020

Total revenues decreased \$20.2 million, or 4%, in the current 2021 quarter, compared with the same period in 2020. We have been unfavorably impacted by global component constraints, which limited our ability to fulfill customer demand. Component constraints and COVID-19 driven customer project timing played significant roles in the lower year-over-year results. Product revenues decreased by \$27.3 million, while service revenues increased \$7.1 million. Device Solutions increased by \$33.8 million; Networked Solution decreased by \$59.4 million; and Outcomes increased by \$5.4 million when compared with the same period last year. Changes in exchange rates favorably impacted total revenues in the 2020 period by \$15.6 million, of which \$9.8 million favorably impacted Device Solutions.

Revenues - Six months ended June 30, 2021 vs. Six Months Ended June 30, 2020

Total revenues decreased \$99.0 million, or 9%, for the first six months of 2021, compared with the same period in 2020. We have been unfavorably impacted by timing of customer projects and shipments that continue to be impacted by COVID-19. Lower year-over-year results reflected continued COVID-19 impacts in addition to global component constraints, which limited

our ability to fulfill customer demand. Product revenues decreased by \$112.6 million, while service revenues increased by \$13.6 million. Device Solutions increased by \$4.3 million; Networked Solutions decreased by \$112.0 million; and Outcomes increased by \$8.6 million when compared with the same period last year. Changes in exchange rates favorably impacted total revenues by \$33.3 million, of which \$23.2 million favorably impacted Device Solutions.

Gross Margin - Three months ended June 30, 2021 vs. Three months ended June 30, 2020

Gross margin in the current 2021 quarter was 30.6%, compared with 27.2% in 2020. We were favorably impacted by product and solution mix and manufacturing efficiencies in 2021 compared with 2020, which was more unfavorably impacted by COVID-19. Product sales gross margin increased to 28.3% for the quarter in 2021, compared with 25.0% in 2020. Gross margin on service revenues increased to 42.8% in 2021, compared with 40.8% in 2020.

Gross Margin - Six months ended June 30, 2021 vs. Six Months Ended June 30, 2020

Gross margin for the current year was 31.4%, compared with 28.0% in 2020. We were favorably impacted by product and solution mix and operating efficiencies in 2021 compared with 2020, which was more unfavorably impacted by COVID-19. Product sales gross margin increased to 29.5% in the 2021 period, compared with 26.2% in 2020, and gross margin on service revenues increased to 42.2%, compared with 40.4% in 2020.

Refer to Operating Segment Results section below for further detail on total company revenues and gross margin.

Operating Expenses

The actual results of and effects of changes in foreign currency exchange rates on operating expenses were as follows:

<i>In thousands</i>	Three Months Ended June 30,		Effect of Changes in Foreign Currency Exchange Rates	Constant Currency Change	Total Change
	2021	2020			
Total Company					
Sales, general and administrative	\$ 74,144	\$ 69,538	\$ 2,871	\$ 1,735	\$ 4,606
Research and development	48,763	48,994	825	(1,056)	(231)
Amortization of intangible assets	8,997	11,140	188	(2,331)	(2,143)
Restructuring	192	(2,683)	(220)	3,095	2,875
Loss on sale of business	24,711	56,915	3,661	(35,865)	(32,204)
Total operating expenses	\$ 156,807	\$ 183,904	\$ 7,325	\$ (34,422)	\$ (27,097)

<i>In thousands</i>	Six Months Ended June 30,		Effect of Changes in Foreign Currency Exchange Rates	Constant Currency Change	Total Change
	2021	2020			
Total Company					
Sales, general and administrative	\$ 150,136	\$ 150,036	\$ 5,698	\$ (5,598)	\$ 100
Research and development	100,490	102,775	1,774	(4,059)	(2,285)
Amortization of intangible assets	17,970	22,305	338	(4,673)	(4,335)
Restructuring	(1,788)	(2,931)	(247)	1,390	1,143
Loss on sale of business	26,103	56,915	3,661	(34,473)	(30,812)
Total operating expenses	\$ 292,911	\$ 329,100	\$ 11,224	\$ (47,413)	\$ (36,189)

Operating expenses decreased \$27.1 million for the second quarter of 2021 as compared with the same period in 2020. This was primarily the result of a reduction of \$32.2 million in the charges related to the loss on sale of business and a decrease of \$2.1 million in amortization of intangible assets. The overall decrease was partially offset by a \$4.4 million increase in labor costs and \$2.9 million increase in restructuring.

Operating expenses decreased \$36.2 million for the six months ended June 30, 2021 as compared with the same period in 2020. This was primarily the result of decreases of \$30.8 million related to the sale of business, \$3.9 million in travel expense, \$1.8 million in facility costs, \$4.3 million in amortization of intangible assets, and \$2.1 million in acquisition and integration

expenses classified within sales, general and administrative. The overall decrease was partially offset by increases of \$1.1 million in restructuring, \$5.0 million in labor costs, and \$3.3 million in information technology expense.

Other Income (Expense)

The following table shows the components of other income (expense):

<i>In thousands</i>	Three Months Ended June 30,			Six Months Ended June 30,		
	2021	2020	% Change	2021	2020	% Change
Interest income	\$ 432	\$ 1,258	(66)%	\$ 974	\$ 1,811	(46)%
Interest expense	(1,265)	(10,678)	(88)%	(9,045)	(20,948)	(57)%
Amortization of prepaid debt fees	(12,739)	(1,006)	NM	(15,434)	(2,013)	NM
Other income (expense), net	(12,157)	(1,873)	NM	(14,923)	(807)	NM
Total other income (expense)	\$ (25,729)	\$ (12,299)	109%	\$ (38,428)	\$ (21,957)	75%

Total other income (expense) for the three and six months ended June 30, 2021 was a net expense of \$25.7 million and \$38.4 million, compared with net expense of \$12.3 million and \$22.0 million in the same period in 2020.

The higher total expense for the three months ended June 30, 2021, as compared with the same period in 2020, was primarily driven by \$11.1 million write-off of prepaid debt fees associated with the repayment of senior subordinated notes during the second quarter of 2021 and \$10.0 million related to the extinguishment of debt in other income (expense), net. The increase was partially offset by a decrease of \$4.6 million in interest expense for the senior subordinated notes, \$2.6 million in interest expense for the term loan, and \$1.9 million in interest expense for the revolving credit.

The higher total expense for the six months ended June 30, 2021, as compared with the same period in 2020, was primarily driven by \$11.1 million write-off of prepaid debt fees associated with the repayment of senior subordinated notes during the second quarter of 2021, \$2.3 million in higher debt fee amortization, and \$11.7 million related to the extinguishment of debt in other income (expense), net. The increase was partially offset by a decrease of \$5.1 million in interest expense for the term loan, \$4.6 million in interest expense for the senior subordinated notes, and \$2.1 million in interest expense for the revolving credit.

Income Tax Provision

For the three and six months ended June 30, 2021, our income tax expense (benefit) was \$(0.2) million and \$4.4 million, respectively, compared with income tax expense of \$4.8 million and \$12.4 million for the same period in 2020. Our tax rate for the three and six months ended June 30, 2021 of 1% and (31)%, differed from the federal statutory rate of 21% primarily due to reserves on deferred sales price receivables recognized in the second quarter related to the 2020 divestiture of the majority of our Latin American business activities. This item was recognized for tax as a discrete and resulted in no tax benefit. Other rate drivers include losses in jurisdictions for which no benefit is recognized because of valuation allowances on deferred tax assets, the forecasted mix of earnings in domestic and international jurisdictions, a benefit related to stock-based compensation, and uncertain tax positions. Our tax rate for the three and six months ended June 30, 2020 of (8)% and (30)% differed from the federal statutory rate of 21% primarily due to a significant loss recognized in the second quarter for the divestiture of the majority of our Latin American business activities. This loss was recognized for tax as a discrete item and resulted in no tax benefit. Other rate drivers include losses in jurisdictions for which no benefit is recognized because of valuation allowances on deferred tax assets as well as the forecasted mix of earnings in domestic and international jurisdictions, a benefit related to stock-based compensation, and uncertain tax positions.

For additional discussion related to income taxes, see Item 1: Financial Statements (Unaudited), Note 10: Income Taxes included in this Quarterly Report on Form 10-Q.

Operating Segment Results

Revenues	\$ 335,748	\$ 331,444	\$ 23,226	\$ (18,922)	\$ 4,304
Gross profit	62,748	44,315	1,842	16,591	18,433
Operating expenses	21,059	27,237	679	(6,857)	(6,178)

Revenues - Three months ended June 30, 2021 vs. Three months ended June 30, 2020

Revenues increased \$33.8 million, or 26%. Changes in foreign currency exchange rates favorably impacted revenues by \$9.8 million. Revenue was favorably impacted by increased shipments in Europe, Middle East, and Africa (EMEA) in 2021 compared with 2020 primarily due to the COVID-19 related impacts in 2020. The three months ended June 30, 2021 was impacted by global component shortages, which limited our ability to ship all of our customer demand. Revenue also decreased \$7.8 million due to lower shipments to the Latin America region.

Revenues - Six months ended June 30, 2021 vs. Six months ended June 30, 2020

Revenues increased \$4.3 million, or 1%, for the first six months of 2021 compared with the same period in 2020. Changes in foreign currency exchange rates favorably impacted revenues by \$23.2 million. The first six months of 2021 was impacted by global component shortages, which limited our ability to ship all of our customer demand. Revenue decreased \$17.0 million due to lower shipments to the Latin America region.

Gross Margin - Three months ended June 30, 2021 vs. Three months ended June 30, 2020

For the three months ended June 30, 2021, gross margin was 18.7%, compared with 9.3% for the same period in 2020. The 940 basis point increase over the prior year was primarily due to favorable product mix and reduced manufacturing inefficiencies related to COVID-19 compared with the second quarter of 2020.

Gross Margin - Six months ended June 30, 2021 vs. Six months ended June 30, 2020

For the six months ended June 30, 2021, gross margin was 18.7%, compared with 13.4% for the same period in 2020. The 530 basis point increase over the prior year was primarily due to favorable product mix and reduced manufacturing inefficiencies related to COVID-19 compared with the same period in 2020.

Operating Expenses - Three months ended June 30, 2021 vs. Three months ended June 30, 2020

Operating expenses decreased \$2.6 million, or 20%, compared with 2020. The decrease was primarily related to \$2.7 million decrease in research and development costs.

Operating Expenses - Six months ended June 30, 2021 vs. Six months ended June 30, 2020

Operating expenses decreased \$6.2 million, or 23%, for the first six months of 2021 compared with the same period in 2020. The decrease was primarily a result of lower research and development costs.

Networked Solutions

The effects of changes in foreign currency exchange rates and the constant currency changes in certain Networked Solutions segment financial results were as follows:

<i>In thousands</i>	Three Months Ended June 30,		Effect of Changes in Foreign Currency Exchange Rates	Constant Currency Change	Total Change
	2021	2020			
Networked Solutions Segment					
Revenues	\$ 265,058	\$ 324,480	\$ 3,848	\$ (63,270)	\$ (59,422)
Gross profit	95,953	108,323	108	(12,478)	(12,370)
Operating expenses	31,323	30,941	120	262	382

<i>In thousands</i>	Six Months Ended June 30,		Effect of Changes in Foreign Currency Exchange Rates	Constant Currency Change	Total Change
	2021	2020			
Networked Solutions Segment					
Revenues	\$ 553,372	\$ 665,325	\$ 6,811	\$ (118,764)	\$ (111,953)
Gross profit	208,712	230,073	1,054	(22,415)	(21,361)
Operating expenses	64,791	64,011	204	576	780

Revenues - Three months ended June 30, 2021 vs. Three months ended June 30, 2020

Revenues decreased \$59.4 million, or 18%, in 2021 compared with 2020. The change was primarily due to the timing of customer projects and global component shortages, which limited our ability to ship all of our customer demand. Lower product revenue of \$65.2 million was partially offset by higher maintenance service revenue of \$5.7 million.

Revenues - Six months ended June 30, 2021 vs. Six months ended June 30, 2020

Revenues decreased \$112.0 million, or 17%, for the first six months of 2021 compared with the same period in 2020. The change was primarily due to the timing of customer projects, global component shortages, which limited our ability to ship all of our customer demand and the impact of COVID-19 on new deployments. Lower product revenue of \$121.9 million was partially offset by higher maintenance service revenue of \$9.9 million.

Gross Margin - Three months ended June 30, 2021 vs. Three months ended June 30, 2020

Gross margin increased to 36.2% for the period ending June 30, 2021, compared with 33.4% in 2020. The 280 basis point increase was primarily driven by favorable product mix and reduced manufacturing inefficiencies related to COVID-19.

Gross Margin - Six months ended June 30, 2021 vs. Six months ended June 30, 2020

Gross margin increased to 37.7% for the 2021 period, compared with 34.6% in 2020. The 310 basis point increase was primarily driven by favorable product mix and reduced manufacturing inefficiencies related to COVID-19.

Operating Expenses - Three months ended June 30, 2021 vs. Three months ended June 30, 2020

Operating expenses increased \$0.4 million, or 1%, for the quarter in 2021, compared with the same period in 2020. The increase was primarily related to increased investment in research and development.

Operating Expenses - Six months ended June 30, 2021 vs. Six months ended June 30, 2020

Operating expenses increased \$0.8 million, or 1%, for the first six months of 2021, compared with the same period in 2020. The increase was primarily driven by increased investment in research and development.

Outcomes

The effects of changes in foreign currency exchange rates and the constant currency changes in certain Outcomes segment financial results were as follows:

<i>In thousands</i>	Three Months Ended June 30,		Effect of Changes in Foreign Currency Exchange Rates	Constant Currency Change	Total Change
	2021	2020			
Outcomes Segment					
Revenues	\$ 61,387	\$ 55,949	\$ 1,958	\$ 3,480	\$ 5,438
Gross profit	23,470	18,246	779	4,445	5,224
Operating expenses	10,933	9,020	38	1,875	1,913

<i>In thousands</i>	Six Months Ended June 30,		Effect of Changes in Foreign Currency Exchange Rates	Constant Currency Change	Total Change
	2021	2020			
Outcomes Segment					
Revenues	\$ 119,866	\$ 111,240	\$ 3,261	\$ 5,365	\$ 8,626
Gross profit	45,459	35,695	1,230	8,534	9,764
Operating expenses	22,586	18,271	66	4,249	4,315

Revenues - Three months ended June 30, 2021 vs. Three months ended June 30, 2020

For the 2021 period, revenues increased \$5.4 million, or 10%, compared with the 2020 period. This increase was driven by an increase in managed and professional services.

Revenues - Six months ended June 30, 2021 vs. Six months ended June 30, 2020

Revenues increased \$8.6 million, or 8%, for the first six months of 2021 compared with the same period in 2020. This increase was driven by an increase in software license sales, professional and managed services.

Gross Margin - Three months ended June 30, 2021 vs. Three months ended June 30, 2020

Gross margin increased to 38.2% for the second quarter of 2021, compared with 32.6% for the same period last year. The 560 basis point increase was driven by favorable product and services mix and other cost containment initiatives.

Gross Margin - Six months ended June 30, 2021 vs. Six months ended June 30, 2020

Gross margin increased to 37.9% for the period ending in 2021, compared with 32.1% for last year. The 580 basis point increase was driven by favorable product and services mix and other cost containment initiatives.

Operating Expenses - Three months ended June 30, 2021 vs. Three months ended June 30, 2020

Operating expenses for the 2021 period increased \$1.9 million, compared with the same period last year, with higher research and development expense of \$1.5 million and product marketing expenses of \$0.4 million.

Operating Expenses - Six months ended June 30, 2021 vs. Six months ended June 30, 2020

Operating expenses for the first six months of 2021 increased \$4.3 million, or 24%, compared with the same period last year. This increase was primarily related to increased research and development investment of \$3.2 million and higher product marketing expenses of \$1.1 million.

Corporate Unallocated

Corporate Unallocated Expenses - Three months ended June 30, 2021 vs. Three months ended June 30, 2020

Operating expenses not directly associated with an operating segment are classified as Corporate unallocated. These expenses decreased \$26.8 million, or 20%, for the three months ended June 30, 2021 compared with the same period in 2020. This was primarily the result of a \$32.2 million decrease in the charge related to the loss on sale of business and a \$2.1 million decrease in amortization of intangible assets. The decrease was partially offset by a \$4.0 million increase in labor costs and a \$2.9 million increase in restructuring.

Corporate Unallocated Expenses - Six months ended June 30, 2021 vs. Six months ended June 30, 2020

For the first six months of 2021, Corporate unallocated expenses decreased \$35.1 million, or 16%, as compared with the same period in 2020. This was primarily the result of decreases of \$30.8 million in the charge related to the loss on sale of business, \$1.8 million in facility costs, \$3.2 million in travel, \$4.3 million in amortization of intangible assets, and \$2.1 million in acquisition and integration expenses classified within sales, general and administrative. The overall decrease was partially offset by a \$3.4 million increase in labor costs, \$3.2 million increase in information technology expenses, and a \$1.1 million increase in restructuring.

Bookings and Backlog of Orders

Bookings for a reported period represent customer contracts and purchase orders received during the period for hardware, software, and services that have met certain conditions, such as regulatory and/or contractual approval. Total backlog represents committed but undelivered products and services for contracts and purchase orders at period-end. Twelve-month backlog represents the portion of total backlog that we estimate will be recognized as revenue over the next 12 months. Backlog is not a complete measure of our future revenues as we also receive significant book-and-ship orders, as well as frame contracts. Bookings and backlog may fluctuate significantly due to the timing of large project awards. In addition, annual or multi-year contracts are subject to rescheduling and cancellation by customers due to the long-term nature of the contracts. Beginning total backlog, plus bookings, minus revenues, will not equal ending total backlog due to miscellaneous contract adjustments, foreign currency fluctuations, and other factors. Total bookings and backlog include certain contracts with termination for convenience clause, which will not agree to the total transaction price allocated to the remaining performance obligations disclosed in Item 1: Financial Statements (Unaudited), Note 16: Revenues included in this Quarterly Report on Form 10-Q.

Quarter Ended	Quarterly Bookings	Ending Total Backlog	Ending 12-Month Backlog
<i>In millions</i>			
June 30, 2021	\$ 596	\$ 3,530	\$ 1,378
March 31, 2021	688	3,421	1,293
December 31, 2020	973	3,259	1,204
September 30, 2020	432	2,795	1,107
June 30, 2020	390	2,895	1,291

Financial Condition

Cash Flow Information

<i>In thousands</i>	Six Months Ended June 30,	
	2021	2020
Cash provided by operating activities	\$ 122,680	\$ 25,786
Cash used in investing activities	(14,515)	(29,159)
Cash (used in) provided by financing activities	(108,144)	401,963
Effect of exchange rates on cash and cash equivalents	177	(3,671)
Increase in cash and cash equivalents	\$ 198	\$ 394,919

Cash and cash equivalents were \$207.1 million at June 30, 2021, compared with \$206.9 million at December 31, 2020. The \$0.2 million increase in cash and cash equivalents in the 2021 period was primarily the result of proceeds from convertible senior note and equity offering in March 2021, along with cash flows from operating activities, partially offset by purchases of equity classified derivative contracts, repayment of the term loan and the senior subordinated notes, and the acquisitions of property, plant, and equipment.

Operating activities

Cash provided by operating activities during the six months in 2021 was \$122.7 million compared with \$25.8 million during the same period in 2020. The increase was primarily due to lower variable compensation payouts and a decrease in cash used for working capital as well as lower interest payments.

Investing activities

Cash used in investing activities during the six months in 2021 was \$14.6 million lower than in 2020. This decrease in use of cash was primarily related to the net cash inflow related to the working capital note from the sale of our Latin America operation in 2021, and a decrease of \$8.6 million in purchases of property, plant, and equipment.

Financing activities

Net cash provided by financing activities during the six months in 2021 was \$108.1 million, compared with net cash provided of \$402.0 million for the same period in 2020. In March 2021, we received \$389.4 million from issuance of common stock related to our equity offering, after deducting underwriters' discounts of the offering, purchased \$84.1 million of convertible note hedge contracts, and proceeds of \$45.3 million from sale of warrants. Also in March, we entered into convertible senior notes with gross proceeds of \$460 million, which was used to pay off the majority of the outstanding term loan balance. In April, we repaid the senior subordinated notes totaling \$410 million (including \$10 million early repayment premium) with proceeds from the equity offering and cash on hand. For the six months ended June 30, 2021, we had net repayments of \$455.0 million of debt. Cash payments for prepaid debt fees was \$12.0 million.

Effect of exchange rates on cash and cash equivalents

The effect of exchange rates on the cash balances of currencies held in foreign denominations at June 30, 2021 was an increase of \$0.2 million, compared with a decrease of \$3.7 million for the same period in 2020. Our foreign currency exposure relates to non-U.S. dollar denominated balances in our international subsidiary operations.

Free cash flow (Non-GAAP)

To supplement our Consolidated Statements of Cash Flows presented on a GAAP basis, we use the non-GAAP measure of free cash flow to analyze cash flows generated from our operations. The presentation of non-GAAP free cash flow is not meant to be considered in isolation or as an alternative to net income as an indicator of our performance, or as an alternative to cash flows from operating activities as a measure of liquidity. We calculate free cash flows, using amounts from our Consolidated Statements of Cash Flows, as follows:

<i>In thousands</i>	Six Months Ended June 30,	
	2021	2020
Cash provided by operating activities	\$ 122,680	\$ 25,786
Acquisitions of property, plant, and equipment	(20,476)	(29,049)
Free cash flow	\$ 102,204	\$ (3,263)

Free cash flow fluctuated primarily as a result of changes in cash provided by operating activities. See the cash flow discussion of operating activities above.

Off-balance sheet arrangements

We have no off-balance sheet financing agreements or guarantees as defined by Item 303 of Regulation S-K at June 30, 2021 and December 31, 2020 that we believe could reasonably likely have a current or future affect on our financial condition, results of operations, or cash flows.

Liquidity and Capital Resources

Our principal sources of liquidity are cash flows from operations, borrowings, and the sale of our common stock. Cash flows may fluctuate and are sensitive to many factors including changes in working capital and the timing and magnitude of capital expenditures and payments of debt. Working capital, which represents current assets less current liabilities, continues to be in a net favorable position.

Financing Activity

On March 12, 2021, we closed the sale of 4,472,222 shares of our common stock in a public offering, resulting in net proceeds to us of approximately \$389.4 million, after deducting underwriters' discounts of the offering, as well as the sale of the Convertible Notes in a private placement to qualified institutional buyers, resulting in net proceeds to us of approximately \$448.5 million after deducting initial purchasers' discounts of the offering. Concurrently with the issuance of the Convertible Notes, we entered into the Convertible Note Hedge Transactions and Warrant Transactions. For further description of these transactions, refer to Item 1: Financial Statements (Unaudited), Note 6: Debt and Item 1: Financial Statements (Unaudited), Note 7: Derivative Financial Instruments included in this Quarterly Report on Form 10-Q.

Borrowings

On October 18, 2019 we amended our credit facility that was initially entered on January 5, 2018 (together with the amendment, the "2018 credit facility"). The 2018 credit facility provides for committed credit facilities in the amount of \$1.2 billion U.S. dollars. The 2018 credit facility consists of a \$650 million U.S. dollar term loan (the term loan) and a multicurrency revolving line of credit (the revolver) with a principal amount of up to \$500 million. The revolver also contains a \$300 million standby letter of credit sub-facility and a \$50 million swingline sub-facility. The October 18, 2019, amendment extended the maturity date to October 18, 2024 and re-amortized the term loan based on the new balance as of the amendment date.

On October 19, 2020, we completed a second amendment to our 2018 credit facility. This amendment adjusts the maximum total net leverage ratio thresholds for the period beginning with the fourth quarter of 2020 through the fourth quarter of 2021 to allow for increased operational flexibility. The maximum leverage ratio is increased to 4.75:1 for the fourth quarter of 2020 and the first quarter of 2021 and 4.50:1 for the second quarter through the fourth quarter of 2021. An additional level of pricing was added to the existing pricing grid and is effective throughout the remaining term of the 2018 credit facility. Beginning with the fourth quarter of 2020, the commitment fee ranges from 0.15% to 0.30% and drawn amounts are subject to a margin ranging from 1.00% to 2.00%. Debt fees of approximately \$1.4 million were incurred for the amendment, as well as other legal and advisory fees. Both the term loan and the revolver can be repaid without penalty. Amounts repaid on the term loan may not be reborrowed, and amounts borrowed under the revolver may be repaid and reborrowed until the revolver's maturity, at which time all outstanding loans together with all accrued and unpaid interest must be repaid.

On March 8, 2021, we entered into a third amendment to our 2018 credit facility, which modified provisions to permit cash settlement upon the conversion of the Convertible Notes, the Convertible Senior Note Hedge Transactions and Warrant Transactions and also to adjust certain settlement provisions for convertible indebtedness. See Item 1: Financial Statements (Unaudited), Note 7: Derivative Financial Instruments for further details of the Convertible Note Hedge Transactions and Warrant Transactions.

On March 9, 2021, we submitted a Notice of Redemption to the trustee to redeem all outstanding Senior Notes at a redemption price of 102.50%, in accordance with the indenture governing the Senior Notes, totaling \$410 million. As of April 8, 2021 the Senior Notes were fully discharged, and no principal or unpaid interest remains outstanding.

On March 12, 2021, we closed the sale of the Convertible Notes in a private placement to qualified institutional buyers, resulting in net proceeds to us of approximately \$448.5 million after deducting initial purchasers' discounts of the offering. The proceeds were used to enter into the Convertible Hedge Transactions (which was partially offset by the proceeds from the Warrant Transactions) and, together with cash on hand, to redeem the outstanding Senior Notes as described above.

For further description of our borrowings, refer to Item 1: Financial Statements (Unaudited), Note 6: Debt included in this Quarterly Report on Form 10-Q.

For a description of our letters of credit and performance bonds, and the amounts available for additional borrowings or letters of credit under our lines of credit, including the revolver that is part of our credit facility, refer to Item 1: Financial Statements (Unaudited), Note 11: Commitments and Contingencies included in this Quarterly Report on Form 10-Q.

Silver Spring Networks, Inc. Acquisition

As part of the acquisition of SSNI, we achieved approximately \$50 million of annualized savings by the end of 2020. For the six months ended June 30, 2021, we paid out \$1.1 million and we have approximately \$4 million to \$8 million of estimated cash payments remaining on the integration plan, the majority of which is expected to be paid out in the next 12 months.

Restructuring

On September 17, 2020, our Board of Directors approved a restructuring plan (the 2020 Projects). The 2020 Projects include activities that continue our efforts to optimize its global supply chain and manufacturing operations, sales and marketing organizations, and other overhead. These projects are scheduled to be substantially complete by the end of 2022. We estimate pre-tax restructuring charges of \$55 million to \$65 million. Of the total estimated charge, approximately \$35 million to \$45 million will result in cash expenditures, and the remainder relates to non-cash charges.

For the six months ended June 30, 2021, we paid \$14.7 million related to all our restructuring projects. As of June 30, 2021, \$53.8 million was accrued for these restructuring projects, of which \$26.5 million is expected to be paid within the next 12 months.

For further details regarding our restructuring activities, refer to Item 1: Financial Statements (Unaudited), Note 12: Restructuring included in this Quarterly Report on Form 10-Q.

Reserve of Receivables from Sale of Business

On June 25, 2020, we closed on the sale of five subsidiaries comprising our manufacturing and sales operations in Latin America to buyers led by Instalación Profesional y Tecnologías del Centro S.A. de C.V., a Mexican company doing business as Accell in Brazil (Accell), through the execution of various definitive stock purchase agreements. The total sales price of \$35.0 million included deferred payments of \$21.1 million for working capital, which was to be paid in full by December 31, 2020, as evidenced by a promissory note, and the remainder in cash (\$4.5 million) and other deferred consideration. In January 2021, we agreed to extend the payment terms on the remaining outstanding working capital balance of \$18.4 million. Accell had agreed to make monthly payments, including interest, through September 2022, under which we received full payments for January through March and partial payments in April and May (totaling \$3.8 million including \$0.7 million in interest). In July 2021, we received a revised payment plan for the remaining working capital note receivable, as well as the other deferred transaction receivables. Based on Accell's failure to make timely payments, continued requests to defer payments significantly beyond the original maturity of the working capital note, and the negative impact of the COVID-19 pandemic on the Latin American markets, we determined to fully reserve the working capital and other deferred consideration.

Other Liquidity Considerations

We have tax credits and net operating loss carryforwards in various jurisdictions that are available to reduce cash taxes. However, utilization of tax credits and net operating losses are limited in certain jurisdictions. Based on current projections, we expect to pay, net of refunds, approximately \$2 million in state taxes, and \$8 million in local and foreign taxes during 2021. We do not expect to pay any U.S. federal taxes. For a discussion of our tax provision and unrecognized tax benefits, see Item 1: Financial Statements (Unaudited), Note 10: Income Taxes included in this Quarterly Report on Form 10-Q.

As of June 30, 2021, we are under examination by certain tax authorities. We believe we have appropriately accrued for the expected outcome of all tax matters and do not currently anticipate that the ultimate resolution of these examinations will have a material adverse effect on our financial condition, future results of operations, or liquidity.

As of June 30, 2021, there was \$54.3 million of cash and short-term investments held by certain foreign subsidiaries in which we are permanently reinvested for tax purposes. As a result of recent changes in U.S. tax legislation, any repatriation in the future would not result in U.S. federal income tax. Accordingly, there is no provision for U.S. deferred taxes on this cash. If this cash were repatriated to fund U.S. operations, additional withholding tax costs may be incurred. Tax is only one of the many factors that we consider in the management of global cash. Accordingly, the amount of taxes that we would need to accrue and pay to repatriate foreign cash could vary significantly.

In several of our consolidated international subsidiaries, we have joint venture partners, who are minority shareholders. Although these entities are not wholly-owned by Itron, Inc., we consolidate them because we have a greater than 50% ownership interest and/or because we exercise control over the operations. The noncontrolling interest balance in our Consolidated Balance Sheets represents the proportional share of the equity of the joint venture entities, which is attributable to the minority shareholders. At June 30, 2021, \$20.4 million of our consolidated cash balance was held in our joint venture entities. As a result, the minority shareholders of these entities have rights to their proportional share of this cash balance, and there may be limitations on our ability to repatriate cash to the United States from these entities.

General Liquidity Overview

Notwithstanding the expected short to mid-term impacts of the COVID-19 pandemic, we expect to grow through a combination of internal new research and development, licensing technology from and to others, distribution agreements, partnering arrangements, and acquisitions of technology or other companies. We expect these activities to be funded with existing cash, cash flow from operations, borrowings, or the sale of our common stock or other securities. We believe existing sources of liquidity will be sufficient to fund our existing operations and obligations for the next 12 months and into the foreseeable future, but offer no assurances. Our liquidity could be affected by the stability of the electricity, gas, and water utility industries, competitive pressures, our dependence on certain key vendors and components, changes in estimated liabilities for product warranties and/or litigation, duration of the COVID-19 pandemic, future business combinations, capital market fluctuations, international risks, and other factors described under Risk Factors within Item 1A of Part I of our 2020 Annual Report, as well as Quantitative and Qualitative Disclosures About Market Risk within Item 3 of Part I included in this Quarterly Report on Form 10-Q.

Contingencies

Refer to Item 1: Financial Statements (Unaudited), Note 11: Commitments and Contingencies included in this Quarterly Report on Form 10-Q.

Critical Accounting Estimates and Policies

Our consolidated financial statements and accompanying notes are prepared in accordance with GAAP. Preparing consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. These estimates and assumptions are affected by management's application of accounting policies. Our critical accounting policies that require the use of estimates and assumptions were discussed in detail in the 2020 Annual Report and have not changed materially.

Refer to Item 1: Financial Statements (Unaudited), Note 1: Summary of Significant Accounting Policies included in this Quarterly Report on Form 10-Q for further disclosures regarding new accounting pronouncements.

Non-GAAP Measures

The accompanying schedule contains non-GAAP financial measures. To supplement our consolidated financial statements, which are prepared in accordance with GAAP, we use certain non-GAAP financial measures, including non-GAAP operating expense, non-GAAP operating income, non-GAAP net income, non-GAAP diluted EPS, adjusted EBITDA, free cash flow, and constant currency. The presentation of this financial information is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP, and other companies may define such measures differently. For more information on these non-GAAP financial measures, please see the table captioned Reconciliations of Non-GAAP Financial Measures to the Most Directly Comparable GAAP Financial Measures.

We use these non-GAAP financial measures for financial and operational decision making and/or as a means for determining executive compensation. Management believes that these non-GAAP financial measures provide meaningful supplemental information regarding our performance and ability to service debt by excluding certain expenses that may not be indicative of our recurring core operating results. These non-GAAP financial measures facilitate management's internal comparisons to our historical performance, as well as comparisons to our competitors' operating results. Our executive compensation plans exclude non-cash charges related to amortization of intangibles and certain discrete cash and non-cash charges, such as acquisition and integration related expenses, loss on sale of business, or restructuring charges. We believe that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance and when planning, forecasting and analyzing future periods. We believe these non-GAAP financial measures are useful to investors because they provide greater transparency with respect to key metrics used by management in its financial and operational decision making and because they are used by our institutional investors and the analyst community to analyze the health of our business.

Non-GAAP operating expenses and non-GAAP operating income – We define non-GAAP operating expenses as operating expenses excluding certain expenses related to the amortization of intangible assets, restructuring, loss on sale of business, corporate transition cost, and acquisition and integration. We define non-GAAP operating income as operating income (loss) excluding the expenses related to the amortization of intangible assets, restructuring, loss on sale of business, corporate transition cost, and acquisition and integration. Acquisition and integration related expenses include costs, which are incurred to affect and integrate business combinations, such as professional fees, certain employee retention and salaries related to integration, severances, contract terminations, travel costs related to knowledge transfer, system conversion costs, and asset impairment charges. We consider these non-GAAP financial measures to be useful metrics for management and investors because they exclude the effect of expenses that are related to acquisitions and restructuring projects. By excluding these expenses, we believe that it is easier for management and investors to compare our financial results over multiple periods and analyze trends in our operations. For example, in certain periods, expenses related to amortization of intangible assets may decrease, which would improve GAAP operating margins, yet the improvement in GAAP operating margins due to this lower expense is not necessarily reflective of an improvement in our core business. There are some limitations related to the use of non-GAAP operating expenses and non-GAAP operating income versus operating expenses and operating income calculated in accordance with GAAP. We compensate for these limitations by providing specific information about the GAAP amounts excluded from non-GAAP operating expense and non-GAAP operating income and evaluating non-GAAP operating expense and non-GAAP operating income together with GAAP operating expense and operating income.

Non-GAAP net income and non-GAAP diluted EPS – We define non-GAAP net income as net income (loss) attributable to Itron, Inc. excluding the expenses associated with amortization of intangible assets, amortization of debt placement fees, debt extinguishment, restructuring, loss on sale of business, corporate transition cost, acquisition and integration, and the tax effect of excluding these expenses. We define non-GAAP diluted EPS as non-GAAP net income divided by diluted weighted-average shares outstanding during the period calculated on a GAAP basis and then reduced to reflect the anti-dilutive impact of the convertible note hedge transaction entered into in connection with the 0% Convertible Notes due 2026 issued in March 2021. We consider these financial measures to be useful metrics for management and investors for the same reasons that we use non-GAAP operating income. The same limitations described above regarding our use of non-GAAP operating income apply to our use of non-GAAP net income and non-GAAP diluted EPS. We compensate for these limitations by providing specific information regarding the GAAP amounts excluded from these non-GAAP measures and evaluating non-GAAP net income and non-GAAP diluted EPS together with GAAP net income attributable to Itron, Inc. and GAAP diluted EPS.

For interim periods the budgeted annual effective tax rate (AETR) is used, adjusted for any discrete items, as defined in Accounting Standards Codification (ASC) 740 - Income Taxes. The budgeted AETR is determined at the beginning of the fiscal year. The AETR is revised throughout the year based on changes to our full-year forecast. If the revised AETR increases or decreases by 200 basis points or more from the budgeted AETR due to changes in the full-year forecast during the year, the revised AETR is used in place of the budgeted AETR beginning with the quarter the 200 basis point threshold is exceeded and going forward for all subsequent interim quarters in the year. We continue to assess the AETR based on latest forecast

throughout the year and use the most recent AETR anytime it increases or decreases by 200 basis points or more from the prior interim period.

Adjusted EBITDA – We define adjusted EBITDA as net income (loss) (a) minus interest income, (b) plus interest expense, depreciation and amortization, debt extinguishment, restructuring, loss on sale of business, corporate transition cost, acquisition and integration related expense, and (c) excluding income tax provision or benefit. Management uses adjusted EBITDA as a performance measure for executive compensation. A limitation to using adjusted EBITDA is that it does not represent the total increase or decrease in the cash balance for the period and the measure includes some non-cash items and excludes other non-cash items. Additionally, the items that we exclude in our calculation of adjusted EBITDA may differ from the items that our peer companies exclude when they report their results. We compensate for these limitations by providing a reconciliation of this measure to GAAP net income (loss).

Free cash flow – We define free cash flow as net cash provided by operating activities less cash used for acquisitions of property, plant and equipment. We believe free cash flow provides investors with a relevant measure of liquidity and a useful basis for assessing our ability to fund our operations and repay our debt. The same limitations described above regarding our use of adjusted EBITDA apply to our use of free cash flow. We compensate for these limitations by providing specific information regarding the GAAP amounts and reconciling to free cash flow.

Constant currency – We refer to the impact of foreign currency exchange rate fluctuations in our discussions of financial results, which references the differences between the foreign currency exchange rates used to translate operating results from the entity's functional currency into U.S. dollars for financial reporting purposes. We also use the term "constant currency", which represents financial results adjusted to exclude changes in foreign currency exchange rates as compared with the rates in the comparable prior year period. We calculate the constant currency change as the difference between the current period results and the comparable prior period's results restated using current period foreign currency exchange rates.

Reconciliations of Non-GAAP Financial Measures to the Most Directly Comparable GAAP Financial Measures

The tables below reconcile the non-GAAP financial measures of operating expenses, operating income, net income, diluted EPS, adjusted EBITDA, and free cash flow with the most directly comparable GAAP financial measures.

TOTAL COMPANY RECONCILIATIONS	Three Months Ended June 30,		Six Months Ended June 30,	
<i>In thousands, except per share data</i>	2021	2020	2021	2020
NON-GAAP OPERATING EXPENSES

Item 3: Quantitative and Qualitative Disclosures about Market Risk

In the normal course of business, we are exposed to interest rate and foreign currency exchange rate risks that could impact our financial position and results of operations. As part of our risk management strategy, we may use derivative financial instruments to hedge certain foreign currency and interest rate exposures. Our objective is to offset gains and losses resulting from these exposures with losses and gains on the derivative contracts used to hedge them, therefore reducing the impact of volatility on earnings or protecting the fair values of assets and liabilities. We use derivative contracts only to manage existing underlying exposures. Accordingly, we do not use derivative contracts for trading or speculative purposes.

Interest Rate Risk

We are exposed to interest rate risk through our variable rate debt instruments. In March 2020, we entered into an interest rate swap, which is effective from June 30, 2020 to June 30, 2023, and converts \$240 million of our LIBOR-based debt from a floating LIBOR interest rate to a fixed interest rate of 0.617% (excluding the applicable margin). The notional balance amortizes to maturity at the same rate of the originally required amortization on our term loan. On March 17, 2021, we paid a fee of \$1.7 million to terminate the interest rate swap since the likelihood of LIBOR based interest payments were no longer probable of occurring. At June 30, 2021, our LIBOR-based debt balance was \$31.1 million.

In April 2018, we entered into a cross-currency swap, which converts \$56.0 million of floating rate LIBOR-based U.S. dollar denominated debt into 1.38% fixed rate euro denominated debt. This cross-currency swap matured on April 30, 2021 and mitigates the risk associated with fluctuations in interest and currency rates impacting cash flows related to a U.S. dollar denominated debt in a euro functional currency entity.

The table below provides information about our financial instruments that are sensitive to changes in interest rates and the scheduled minimum repayment of principal and the weighted average interest rates at June 30, 2021. Weighted average variable rates in the table are based on implied forward rates in the Reuters U.S. dollar yield curve as of June 30, 2021 and our estimated leverage ratio, which determines our additional interest rate margin at June 30, 2021.

<i>Dollars in thousands</i>	2021		2022		2023		2024		Total	Fair Value		
<i>Variable Rate Debt</i>												
Principal: U.S. dollar term loan	\$	—	\$	—	\$	—	\$	31,094	\$	31,094	\$	30,195
Weighted average interest rate		1.10 %		1.19 %		1.60 %		1.96 %				
Principal: Multicurrency revolving line of credit	\$	—	\$	—	\$	—	\$	—	\$	—	\$	—
Weighted average interest rate		1.10 %		1.19 %		1.60 %		1.96 %				

Based on a sensitivity analysis as of June 30, 2021, we estimate that, if market interest rates average one percentage point higher in 2021 than in the table above, our financial results in 2021 would not be materially impacted.

We continually monitor and assess our interest rate risk and may institute additional interest rate swaps or other derivative instruments to manage such risk in the future.

Foreign Currency Exchange Rate Risk

We conduct business in a number of countries. Revenues denominated in functional currencies other than the U.S. dollar were 40% of total revenues for the three and six months ended June 30, 2021 compared with 31% and 35% for the same respective periods in 2020. These transactions expose our account balances to movements in foreign currency exchange rates that could have a material effect on our financial results. Our primary foreign currency exposure relates to non-U.S. dollar denominated transactions in our international subsidiary operations, the most significant of which is the euro.

We are also exposed to foreign exchange risk when we enter into non-functional currency transactions, both intercompany and third-party. At each period-end, non-functional currency monetary assets and liabilities are revalued with the change recognized within other income (expense) in our Consolidated Statements of Operations. We enter into monthly foreign exchange forward contracts, which are not designated for hedge accounting, with the intent to reduce earnings volatility associated with currency exposures. As of June 30, 2021, a total of 37 contracts were offsetting our exposures from the euro, pound sterling, Indonesian rupiah, Canadian dollar, Australian dollar and various other currencies, with notional amounts ranging from \$98,000 to \$46.1 million. Based on a sensitivity analysis as of June 30, 2021, we estimate that, if foreign currency exchange rates average ten percentage points higher in 2021 for these financial instruments, our financial results in 2021 would not be materially impacted.

In future periods, we may use additional derivative contracts to protect against foreign currency exchange rate risks.

Item 4: Controls and Procedures

Evaluation of disclosure controls and procedures

An evaluation was performed under the supervision and with the participation of our Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e)) under the Securities Exchange Act of 1934 as amended. Based on that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that as of June 30, 2021, the Company's disclosure controls and procedures were effective to ensure the information required to be disclosed by an issuer in the reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Changes in internal controls over financial reporting

There have been no changes in our internal control over financial reporting during the three months ended June 30, 2021 that materially affected, or are reasonably likely to materially affect, internal control over financial reporting.

PART II: OTHER INFORMATION**Item 1: Legal Proceedings**

Refer to Item 1: Financial Statements (Unaudited), Note 11: Commitments and Contingencies included in this Quarterly Report on Form 10-Q.

Item 1A: Risk Factors

For a complete list of Risk Factors, refer to Part I, Item 1A: Risk Factors of our Annual Report on Form 10-K for the fiscal year ended December 31, 2020, which was filed with the Securities and Exchange Commission on February 24, 2021.

Item 2: Unregistered Sales of Equity Securities and Use of Proceeds

- (a) Not applicable.
- (b) Not applicable.
- (c) Issuer Repurchase of Equity Securities

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share ⁽²⁾	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
				<i>In thousands</i>
April 1, 2021 through April 30, 2021	—	\$ —	—	\$ —
May 1, 2021 through May 31, 2021	3,806	87.39	—	—
June 1, 2021 through June 30, 2021	—	—	—	—
Total	3,806		—	

⁽¹⁾ Shares repurchased represent shares transferred to us by certain employees who vested in restricted stock units and used shares to pay all, or a portion of, the related taxes.

⁽²⁾ Includes commissions.

Item 5: Other Information

- (a) No information was required to be disclosed in a report on Form 8-K during the second quarter of 2021 that was not reported.
- (b) Not applicable.

Item 6: Exhibits

AS ADOPTED PURSUANT TO SECTION 302 OF THE
SARBANES-OXLEY ACT OF 2002**

I, Thomas L. Deitrich, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of Itron, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations, and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting, which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350
AS ADOPTED PURSUANT TO SECTION 906 OF THE
SARBANES-OXLEY ACT OF 2002**

The certification set forth below is being submitted in connection with the Quarterly Report of Itron, Inc. (the Company) on Form 10-Q for the quarterly period ended June 30, 2021 (the Report) for the purpose of complying with Rule 13a-14(b) or Rule 15d-14(b) of the Securities Exchange Act of 1934 and Section 1350 of Chapter 63 of Title 18 of the United States Code.

Thomas L. Deitrich, the Chief Executive Officer and Joan S. Hooper, the Chief Financial Officer of the Company, each certifies that to the best of his or her knowledge:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
