Item 8.01 Other Events.

On January 20, 2011, Itron, Inc. (the Company) increased its \$240 million multicurrency revolving line of credit to \$315 million as approved by the participating lenders, the issuing agents, the swingline lender, and the administrative agent and as permitted by section 2.19 of Amendment No. 1 of the Credit Facility dated April 24, 2009. There were no other changes to the credit facility. The expanded multicurrency revolving line of credit will provide the Company with increased flexibility and liquidity for general corporate purposes.

The Credit Facility continues to be secured by substantially all of the assets of Itron, Inc. and its U.S. domestic operating subsidiaries and includes covenants, which contain certain financial ratios and place restrictions on the incurrence of debt, the payment of dividends, certain investments, incurrence of capital expenditures above a set limit, and mergers.

At December 31, 2010, there were no borrowings outstanding under the revolving line of credit.
